03	MR. MURRAY:
04	Mr. Hensley, I'm Kenny
05	Murray. I represent the Mine
06	Safety & Health
07	Administration, which is an
08	agency of the United States
09	Department of Labor. I'm the
10	team leader of MSHA's accident
11	investigation team that's
12	charged with investigating the
13	accident that occurred at the

Aracoma Coal Company,

- 15 Incorporated, Aracoma Alma
- 16 Mine Number One, on January
- 17 19th, 2006.
- 18 This is a joint
- 19 investigation that MSHA's
- 20 conducting with the State of
- 21 West Virginia. I'll be asking
- the questions today for MSHA.
- 23 With me here today are other
- 24 members of MSHA's team and the
- 25 State's teams as well. MSHA's

- 01 team includes various
- 02 specialists throughout the
- 03 United States and members of
- 04 the Solicitor's Office in ---
- 05 from Arlington, Virginia.
- 06 At this time, I would
- 07 ask that each of the MSHA team
- 08 members identify themselves
- 09 for you.
- 10 MR. FRANCART:
- 11 William Francart with
- 12 MSHA in Pittsburgh.
- MR. STAHLHUT:
- 14 Ron Stahlhut with MSHA
- in Vincennes, Indiana.
- 16 MR. BEITER:

- 17 Dennis Beiter with MSHA
- 18 from Tech Support.
- 19 MR. FINNIE:
- 20 Mike Finnie,
- 21 Madisonville, Kentucky.
- MR. BURKE:
- Tony Burke, MSHA, from
- 24 Whitesburg, Kentucky.
- MR. WEBB:

- 01 Anthony Webb, MSHA in
- 02 Pikeville, Kentucky.
- 03 MR. BROWN:
- 04 Rodney Brown, MSHA,
- 05 public affairs.
- 06 MR. POGUE:
- 07 Charlie Pogue, MSHA,
- 08 Hunker, PA.
- 09 MS. MITSKOG:
- 10 I'm Marne Mitskog with
- 11 the Solicitor's Office.
- 12 ATTORNEY BARISH:
- 13 Dan Barish with the
- 14 Solicitor's Office.
- 15 ATTORNEY BELL:
- 16 Keith Bell with the
- 17 Solicitor's Office.
- 18 MR. MURRAY:
- 19 Okay. Here also today

- 20 representing the State of West
- 21 Virginia is Mr. Terry Farley
- 22 to my right. And Mr. Farley
- 23 will be asking the questions
- 24 for the State. And at this
- 25 time, I would ask Mr. Farley

- 01 to introduce his team members,
- 02 who are here today.
- 03 MR. FARLEY:
- 04 Okay. Just a brief
- 05 statement before I introduce
- 06 two members of --- as Mr.
- 07 Murray stated, the Office of
- 08 Miners' Health, Safety &
- 09 Training and MSHA are
- 10 conducting this investigation,
- 11 an interview session jointly,
- 12 and we are in agreement with
- 13 the procedures Mr. Murray has
- 14 outlined and will outline.
- 15 Also, however, I need
- 16 to make it clear that our
- 17 director will reserve the
- 18 right, if necessary, to call
- 19 or subpoena witnesses or
- 20 require the production of any
- 21 record, document, photograph

- 22 or other relevant materials
- 23 necessary to conduct this
- 24 investigation. With that
- 25 said, again, I'm Terry Farley

- 01 from our Charleston office.
- 02 ATTORNEY BRADFORD:
- 03 I'm Tim Bradford, I'm
- 04 an attorney with Miners'
- 05 Health, Safety & Training in
- 06 Charleston.
- 07 MR. COX:
- 08 Steve Cox for Region
- 09 Three.
- 10 MR. PHILLIPS:
- 11 C.A. Phillips, safety
- 12 director, Miners' Health,
- 13 Safety & Training.
- 14 MR. WHITE:
- 15 Eugene White, District
- 16 Inspector.
- 17 MR. MURRAY:
- 18 Thank you, Terry.
- 19 MR. FARLEY:
- 20 Sure.
- MR. MURRAY:
- 22 Mr. Hensley, this
- 23 investigation is being
- 24 conducted by MSHA in the State

25 of West Virginia to gather

- 01 information to determine the
- 02 cause of the accident and to
- 03 help prevent future
- 04 occurrences. These interviews
- 05 are a very important part of
- 06 the accident investigation.
- 07 After the investigation is
- 08 completed, MSHA will issue a
- 09 written report detailing the
- 10 nature and causes of the
- 11 accident. MSHA accident
- 12 reports are made available to
- 13 the public in the hope that
- 14 greater awareness about the
- 15 causes of accidents can reduce
- 16 their occurrence in the
- 17 future.
- 18 Information obtained
- 19 through witness interviews is
- frequently used in these
- 21 reports. And your statement
- 22 may also be used in other
- 23 enforcement proceedings. I
- 24 would like to thank you in
- 25 advance for your appearance

- 01 here. We appreciate your
- 02 assistance in this
- 03 investigation. The
- 04 willingness of miners and mine
- 05 operators to work with us is
- 06 critical to our success in
- 07 making the nation's mines
- 08 safer.
- 09 This interview with
- 10 Steve Hensley is being
- 11 conducted under Section 103(a)
- 12 of the Federal Mine Safety &
- 13 Health Act of 1977 as part of
- 14 an investigation by the Mine
- 15 Safety & Health Administration
- 16 into the conditions, events
- 17 and circumstances surrounding
- 18 the fatalities that occurred
- 19 at the Aracoma, Alma Mine
- 20 Number One, located at Route
- 21 17 North, Bandmill Hollow
- 22 Road, Stollings, West
- 23 Virginia, 25646.
- 24 This interview is being
- 25 conducted at the Holiday Inn
- 01 Express in Logan, West
- 02 Virginia on February 8th,
- 03 2006. And it's currently 12

- 04 minutes after 11:00 eastern
- 05 standard time.
- 06 Mr. Hensley, the
- 07 interview will begin by asking
- 08 you a series of questions.
- 09 Feel free at any time to
- 10 clarify any statements that
- 11 you make in response to these
- 12 questions. After we have
- 13 finished asking questions, you
- 14 will have an opportunity to
- 15 make a statement of your own
- 16 and provide us with any
- 17 additional information that
- 18 you believe may be important.
- 19 You are permitted to
- 20 have a representative with you
- 21 during the interview, and you
- 22 may consult with your
- 23 representative at any time.
- You may designate any person
- 25 to be your representative.

01 Following the questions by

- 02 MSHA and the State, your
- 03 representative will be given
- 04 the opportunity to ask
- 05 questions for purpose of

- 06 clarification on areas already
- 07 discussed.
- 08 Your statement is
- 09 completely voluntary. You may
- 10 refuse to answer any question
- 11 and you may end your interview
- 12 at any time. If you don't
- 13 understand a question, tell me
- 14 and I'll rephrase it. If you
- 15 need a break for any reason,
- 16 you let me know that, too.
- 17 You may request the
- 18 opportunity to make a
- 19 confidential statement, which
- 20 will be withheld from the
- 21 public to the extent allowed
- 22 by the law. Should you desire
- 23 to give a confidential
- 24 statement, you should advise
- 25 me before I begin your

01 interview, so that I can

- 02 reschedule your interview in
- 03 order to properly consider
- 04 your request. Do you wish to
- 05 make a confidential ---?
- 06 MR. HENSLEY:
- 07 No.
- 08 MR. MURRAY:

- 09 A court reporter will
- 10 record your interview and will
- 11 later produce a written
- 12 transcript of the interview.
- 13 I ask that you state all your
- 14 answers verbally because the
- 15 court reporter cannot record
- 16 your gestures, like nodding
- 17 your head.
- 18 If any part of your
- 19 statement is based not on your
- 20 own firsthand knowledge, but
- 21 on information that you
- 22 learned from someone else,
- 23 please let us know that.
- 24 Please answer each question as
- 25 fully as you can, including

01 any information that you

- 02 learned from someone else.
- 03 We may not ask the
- 04 right question to learn the
- 05 information you have, so don't
- 06 feel limited to the precise
- 07 question that we ask. If you
- 08 have information about the
- 09 subject area of a question,
- 10 please provide us with that

- 11 information. Do you have any
- 12 questions about how this is
- going to ---
- MR. HENSLEY:
- 15 No.
- MR. MURRAY:
- 17 --- take place so far?
- 18 MR. HENSLEY:
- 19 You ain't lost me yet.
- MR. MURRAY:
- I'll go back. I've
- 22 become a patient man. Would
- you please swear in the
- 24 witness.
- 25 -----

- 01 STEVEN HENSLEY, HAVING FIRST BEEN
- 02 DULY SWORN, TESTIFIED AS FOLLOWS:
- 03 -----
- 04 BY MR. MURRAY:
- 05 Q. Mr. Hensley, please state your
- 06 full name, address and telephone
- 07 number, and then please spell your
- 08 last name for the record.
- 09 A. Steven Ray Hensley,

- voluntarily here today?
- 23 A. Yes.
- Q. Has anyone made any promises
- 25 to you for giving this statement or

01 offered you any rewards in exchange

- 02 for making your statement?
- 03 A. No.
- 04 Q. Has anyone threatened you or
- 05 warned you not to provide this
- 06 statement?
- 07 A. No.
- 08 Q. Do you understand that you may
- 09 refuse to answer any questions or
- 10 terminate this interview at any time?
- 11 A. Yeah.
- 12 Q. Do you have a representative
- 13 with you?
- 14 A. Yes.
- 15 Q. And who is that?

- 16 A. Mark.
- 17 Q. Mark?
- 18 A. I ain't real sure of his last
- 19 name.
- 20 ATTORNEY HEATH:
- 21 It's Mark Heath,
- 22 Spilman, Thomas & Battle.
- 23 A. Heath.
- 24 BY MR. MURRAY:
- 25 Q. Okay. And when did you first

- 01 meet Mr. Heath?
- 02 A. It was yesterday.
- 03 Q. Yesterday's the first time you
- 04 met Mr. Heath?
- 05 A. Yeah.
- 06 Q. Okay. Did you contact him, or
- 07 did he contact you?
- 08 A. When I was coming to work,
- 09 then he was there wanting to talk to
- 10 us and stuff. Just give us the
- 11 format of, you know, what we was
- 12 going to be doing down here today.
- 13 Q. Okay. Did you ask him to be
- 14 your representative, or did he tell
- 15 you that he was going to be ---?
- 16 A. He told me I didn't have to
- 17 have no representative or nothing. I
- 18 chose to, you know, have him.

- 19 Q. Okay. Have you been made
- 20 aware that Mr. Heath also represents
- 21 the company in this matter, and that
- there's a potential for conflict of
- 23 interest to arise between yourself
- and the company?
- 25 A. Yes.

- 01 Q. Okay. Were you taken into a
- 02 room in a hotel today before coming
- 03 into this interview?
- 04 A. Yeah.
- 05 Q. Who was in that room?
- 06 A. Mark and Dave, his partner, I
- 07 guess.
- 08 Q. Would that be Dave Hardy?
- 09 A. Yeah, I think that's his last
- 10 name.
- 11 Q. He's an attorney as well?
- 12 A. Yes.
- 13 Q. What was discussed in that
- 14 room?
- 15 A. He just told me, you know, of
- 16 the layout, you know, of --- who was
- 17 down here and the layout of it.
- 18 Q. Did he advise you how to
- 19 answer any of the questions?
- 20 A. No.

- 21 Q. Did he tell you some of the
- 22 potential questions we might ask you?
- 23 A. No. Told me just tell the
- 24 truth of everything, you know, that
- 25 happened that day.

01 Q. Do you know Randall Crouse?

- 02 A. Yeah.
- 03 Q. Have you seen him today?
- 04 A. Yeah, I seen him when I came
- 05 through the doors.
- 06 Q. Did you have occasion to talk
- 07 to him?
- 08 A. No. I mean, just aside, you
- 09 know, hi, how you doing. When y'all
- 10 was having a break a while ago, I
- 11 didn't see him for two minutes.
- 12 Q. Did Mr. Crouse indicate
- 13 anything about his interview?
- 14 A. No.
- 15 Q. Or what you should expect when
- 16 you get in here?
- 17 A. No. He told me about this
- 18 pretty little woman sitting over
- 19 here.
- 20 Q. Have you ever been interviewed
- 21 by the company before coming in here?
- 22 A. No, no. By company officials
- and stuff? No, I haven't.

- Q. By anybody?
- 25 A. Well, they asked us, you know,

- 01 the day we come out what happened,
- 02 you know what I'm saying. But other
- 03 than that, no.
- 04 Q. Okay. Who asked you those
- 05 questions?
- 06 A. I think it was Duane Francisco
- 07 (phonetic) asked me --- you know,
- 08 asked me where I stopped the manbus
- 09 at and stuff. You know, other than
- 10 that, no.
- 11 Q. Okay. How long have you
- 12 worked at the Aracoma Alma Number One
- 13 Mine?
- 14 A. Since January 2001. That's
- when I transferred there.
- 16 Q. Did you transfer from another
- 17 Massey operation?
- 18 A. Yes.
- 19 Q. Which was?
- 20 A. It was Spring Branch Mining.
- 21 It was from raw sales department.
- 22 Q. I see. What's your current
- job title?
- 24 A. Left side mine operator.
- 25 Q. What was your position on

01 January 19th, 2006, and that's the

- 02 night of the accident?
- 03 A. What do you mean position?
- 04 Q. Your job occupation.
- 05 A. Miner operator.
- 06 Q. Okay. And that's your normal
- 07 occupation?
- 08 A. Yeah.
- 09 Q. And how long have you held
- 10 that position?
- 11 A. About three years.
- 12 Q. What other positions have you
- 13 held at this mine?
- 14 A. Roof bolter operator.
- 15 Q. And how many total years of
- 16 mining experience do you have?
- 17 A. Let's see, I started in
- November of '98, so from November '98
- 19 to now.
- 20 Q. Okay. Now, these next series
- 21 of questions is going to be back on
- the day of the accident, January
- 23 19th, 2006. What shift were you
- 24 scheduled to work that day?
- 25 A. Second shift.

- 01 Q. And what time does second
- 02 shift start?

- 03 A. 2:30.
- 04 Q. And what time does it end?
- 05 A. I usually get outside, I'm
- 06 going to say between 1:30, two
- 07 o'clock in the morning. It just
- 08 depends.
- 09 Q. About what time did you arrive
- 10 at the mine that day?
- 11 A. About two o'clock.
- 12 Q. Who was your supervisor on
- 13 that day?
- 14 A. Mike Plumley.
- 15 Q. Is that your normal
- 16 supervisor?
- 17 A. Yes.
- 18 Q. And what were you assigned to
- 19 do that day, your normal job?
- 20 A. Yeah.
- 21 Q. In what area of the mine were
- 22 you assigned to work on that shift?
- 23 A. The left side of the section,
- 24 which would consist of Number One and
- 25 Number Two entry. Usually Two entry

- 01 is our mine.
- 02 Q. And that would be the Two
- 03 section?
- 04 A. Yes, the Two section.

- 05 Q. Okay. Had you worked in that
- 06 area of the mine before?
- 07 A. Yeah.
- 08 Q. Is that your normal section?
- 09 A. That's where I normally work
- 10 at.
- 11 Q. Before the 19th, when was the
- 12 last time you were on that section?
- 13 A. The 18th.
- 14 Q. Could you give me just a brief
- 15 description, from the beginning of
- 16 the shift up until the time of the
- 17 evacuation, what you did?
- 18 A. Do you want from the box cut
- 19 all the way in?
- 20 Q. Yeah, bring me in the mine.
- 21 A. Okay. We went down and got on
- 22 our diesel ride, like always, and
- 23 started in the rim, drove all the way
- 24 up to Number One full Right. We went
- 25 through the doors, went up the hill,
- 01 and went up, around up, up under the
- 02 overcast and back down toward the
- 03 mother drive. Got off, opened the
- 04 doors, closed them, went through that
- 05 first set of doors, opened the second
- 06 set of doors, when through it. On
- 07 the closed set of doors, the beltman

- 08 was standing there at the inby set of
- 09 doors. He opened the doors for us
- 10 and we went through them, he closed
- 11 them. And they got off and opened
- 12 the other set of doors and went
- 13 through it. Went onto the section.
- We stopped, got off the
- 15 manbus, and another crew was sitting
- 16 there because they was rock dusting
- 17 the section. They was sitting there
- 18 talking --- they was talking about
- 19 putting us on a six and three
- 20 schedule, because we've been working
- 21 a lot of hours and stuff, and they
- 22 was talking about, you know, putting
- 23 us on a six and three schedule. We
- 24 sat there for, I don't know, 10
- 25 minutes, 15 minutes talking to each
- 01 other. And then I went to my miner,
- 02 which was sitting in Number One entry
- 03 and started loading.
- 04 I got to cut out Number One,
- 05 finished cutting Number One. Backed
- 06 the miner up. Waiting on the motor
- 07 to come across and then went to Two
- 08 Right, got that cut. By this time,
- 09 I'm going to say it's 5:30, and I was

- 10 waiting on the motor. So I just
- 11 backed my miner around the corner,
- 12 number two-incher and was putting up
- 13 a center line to cut Number Two head.
- 14 And then they come and towed, I think
- 15 it was Joe Hunt, I think, is the one
- 16 that towed me. You know, we had to
- 17 leave because there was a fire at the
- 18 mother drive. You know, they didn't
- 19 say how bad, or --- just fire at the
- 20 mother drive.
- 21 So we went down and got on the
- 22 diesel trip and was --- I asked Mike
- 23 Plumley, I said, do you want to get
- 24 some rock dust, because I thought we
- was going to maybe go fight a fire,
- 01 try to re-ventilate it, or whatever.
- 02 And then he said no, you know, so we
- 03 just go ahead and go. So I went down
- 04 --- it was about three breaks from
- 05 the top of the hill and Bill Mayhorn
- 06 and Gary Baisden was down there
- 07 building cribs. And we picked them
- 08 up, and headed down the Number Five
- 09 entry. And when you go down Number
- 10 Five so far, you got to cut back up
- in Number Four entry.
- 12 Hit a little bit of light

- 13 smoke just out by where they're
- 14 setting a new mother drive head on
- 15 ten headgate, not nothing --- you
- 16 know what I'm saying, nothing out of
- 17 the ordinary. I mean, it was out of
- 18 the ordinary, but it was real light
- 19 smoke, you know.
- 20 As we got to Number Five, it
- 21 got real kind of thick, not real
- 22 thick, but when I turned up in Number
- 23 Four, it got thick in a hurry right
- 24 up on us, you know. So I parked the
- 25 diesel ride, and told them, you know,
- 01 so we'll go in that man door, you
- 02 know, I done made up my mind. We
- 03 knew where the man door was, because
- 04 there's a seal there where they cut
- 05 in to old works?, and they've been
- 06 fire bossing that seal ever since,
- 07 you know. So we know that man door's
- 08 there. And we said don your
- 09 rescuers. And Elmer Mayhorn was to
- 10 my left, Billy Mayhorn was to my
- 11 right and Ellery Hatfield was ---. I
- 12 mean, Billy Mayhorn was in front of
- me, and Ellery Hatfield was to my
- 14 right.

- We donned our rescuers. I
- 16 thought Mr. Hatfield got his on. I
- 17 don't --- I still to this day don't
- 18 know if he got his on, because I
- 19 never heard nothing else out of him.
- 20 The last thing I heard out of him
- 21 was, how the F you get this thing on.
- 22 Then he shut up, so I took it, you
- 23 know, he got his rescuer on. And we
- 24 felt our way up along the rib line to
- 25 the man door, and went through the
- 01 man door, and got on the 48-inch
- 02 beltline, which was --- and it was
- 03 fresh air. I mean, just like this
- 04 room.
- 05 So we took a head count,
- 06 noticed them two was missing, went
- 07 back over to the man door screaming
- 08 and hollering, nothing. So we
- 09 decided, you know, we got to get down
- on the other side of the fire, so we
- 11 went down --- on down the 48-inch
- 12 beltline to where we know we was on
- 13 the other side of the mother drive,
- and went through the man door down
- 15 there. And then me and Mike Plumley
- 16 and Joe Hunt went back up the 48-inch
- 17 beltline, because we was going to go

- 18 back to that man door see, if maybe
- 19 they come through the man door. This
- 20 time smoke was starting to come ---
- 21 I'm not real sure where at, but it
- 22 was starting to come up on the
- 48-inch beltline.
- 24 And I borrowed Mike Plumley's
- 25 spotter and stuck it up in the smoke
- 01 and hit like 650 parts per million
- 02 carbon monoxide. Well, there ain't
- 03 nothing --- we can't go up through
- 04 here, so we went back down. And got
- 05 everybody else, the rest of our crew.
- 06 By this time, Pat Calloway, and I'm
- 07 not real sure of that other boy that
- 08 was with him. But when we was coming
- 09 down the 48-inch beltline, Bryan
- 10 Cabell was coming up the 48-inch
- 11 beltline, and we got with him.
- 12 Well, we all got together to
- 13 come down through there and got with
- 14 the longwall crew right there at the
- 15 cut-through, and then Troy Shadd and
- 16 Dusty Dotson showed up. We went over
- 17 there to the mother drive belt
- 18 through the crossover and up to the
- 19 mother drive belt and cut that belt

- 20 and dropped the structure down and
- 21 hung a curtain across trying to choke
- 22 the air off in the fire area. And
- 23 then Fred Horton said it was too bad,
- 24 we need to get outside. So we went
- 25 and got on the mantrip and come
- 01 outside, come to the surface. That
- 02 was it.
- 03 Q. That's a great account. We
- 04 appreciate you walking --- I know
- 05 it's painful, but we appreciate you
- 06 walking us through that.
- 07 A. Yeah.
- 08 Q. For my own clarification, just
- 09 let me back up just a little bit.
- 10 A. Okay.
- 11 Q. When you were heading into the
- 12 mine and you said that someone was
- there that opened the man door --- or
- 14 opened the equipment door, was it the
- 15 mother drive?
- 16 A. Yes.
- 17 Q. Who was that?
- 18 A. Karl White. I'm almost
- 19 positive it was Karl White. I ain't
- 20 going to swear to it.
- 21 Q. Okay. And who was driving the
- 22 mantrip on the way in?

- 23 A. I was.
- 24 Q. You were, okay. Did you ever
- 25 have occasion to open those airlock

- 01 doors at that mother drive, those
- 02 equipment doors where you cross under
- 03 the mother drive?
- 04 A. Have I opened them?
- 05 Q. Yeah, you personally.
- 06 A. Well, yes. I had before, but
- 07 since I started driving, no, I ain't
- 08 --- usually one of the boys get off
- 09 the back and open the doors.
- 10 Q. Are they hard to open?
- 11 A. No.
- 12 Q. Okay. When you open them, can
- 13 you tell which way the air wants to
- 14 go from the intake?
- 15 A. Yeah. The air wants to --- as
- soon as you go through the doors, the
- 17 air will hit you in the back when you
- 18 open the doors.
- 19 Q. It hits you in the back?
- 20 A. Right.
- 21 Q. Okay. What about when you
- 22 open the inby door?
- 23 A. The inby doors? I ain't never
- 24 really paid no attention to be

25 honest. I couldn't tell you.

- 01 Q. Do you think that airs hits
- 02 you in the back as well and go toward
- 03 the section?
- 04 A. It depends on if you close the
- 05 ones behind you.
- 06 Q. Yeah, the ones behind you.
- 07 A. If the ones behind me is
- 08 closed, no, because it shouldn't, you
- 09 know what I'm saying. I ain't never
- 10 paid no attention, like I said. But
- 11 it shouldn't hit you in the back.
- 12 Q. You talked about some
- 13 gentlemen that went back once you got
- in on the beltline and you guys went
- into the 48-inch belt, then you said
- 16 there was some folks that went back
- 17 through the door. Who were those?
- 18 A. And I'm not real sure --- I
- 19 know personally, I did not go back
- 20 through the door. We went to the
- 21 door and opened the door up and was
- 22 hollering, you know, for Don Bragg
- 23 and Ellery Hatfield. And you know, I
- 24 really can't remember if Mike Plumley
- 25 went back in the smoke and was

- 02 know, I can't really remember.
- 03 Q. Okay. And you talked about
- ou you borrowed somebody's detector?
- 05 A. Yes. That was Mike Plumley's.
- 06 Q. And you detected 650 parts per
- 07 million?
- 08 A. I really cannot remember
- 09 exactly, but it was around 650 parts
- 10 per million.
- 11 Q. And where was that?
- 12 A. That was --- when we was going
- 13 back up the 48-inch beltline --- I'm
- 14 not real for sure how many breaks it
- 15 was when the smoke was starting to
- 16 come over onto the beltline. I was
- 17 thinking right straight up from the
- 18 mother drive head.
- 19 Q. But that was on the beltline,
- the 48-inch beltline?
- 21 A. Yes.
- 22 Q. And you were talking about, on
- 23 your way out there was some miners
- 24 who were installing the longwall belt

- 25 drive at the Ten headgate?
- 01 A. Well, they work on dayshift,
- 02 the construction crew.
- 03 Q. Okay. And who's in charge of

- 04 that?
- 05 A. Don Haggie (phonetic) and
- 06 Chris Hernley (phonetic). I think
- 07 that's the two bosses that works
- 08 dayshift. You know, they only work
- 09 one crew on it that mother drive
- 10 Q. And does that installation,
- 11 that belt structure in that area ---
- 12 extend in the belt structure for the
- 13 72-inch belt?
- 14 A. Yes.
- 15 Q. That's all one project in that
- 16 area?
- 17 A. Yeah. They put all the six-
- 18 foot beltline in and they put all the
- 19 mother drives on the five-foot
- 20 beltline.
- 21 Q. Okay. And the two guys that
- 22 you just mentioned, are they the
- 23 supervisors in charge of that?
- 24 A. Yes.
- 25 Q. And who normally works on that

01 project?

- 02 A. Both of them. I don't know
- 03 the number of men on our crew. I
- 04 don't know all of them. But you
- 05 know, they was the two bosses.
- 06 Q. Would those be miners who

- 07 worked for Massey?
- 08 A. Yes.
- 09 Q. As opposed to an independent
- 10 group ---?
- 11 A. They worked for Massey.
- 12 Q. Okay. They worked for Aracoma
- 13 Alma ---
- 14 A. Yes.
- 15 Q. --- Mine Number One?
- 16 A. Yes.
- 17 Q. Behind us, we have the mine
- 18 map that --- it's limited to the area
- 19 that we just talked about. It
- 20 depicts the northeast mains area, and
- 21 it extends up to the Two section that
- 22 you just described. Okay. And you
- 23 talked about a seal at some location?
- 24 A. Yes.
- 25 Q. And you talked about a man
- 01 door.
- 02 A. Uh-huh (yes).
- 03 Q. Could you point those out for
- 04 me?
- 05 A. Here's the seal.
- 06 MR. MURRAY:
- 07 Okay. He's pointing to
- 08 an area that's adjacent to the

- 09 48-inch belt, and it looks
- 10 like it's approximately 20
- 11 feet inby survey station 3265.
- 12 And I want to highlight that.
- 13 And I'm going to mark to the
- 14 side in blue ink that that's a
- 15 seal. Is that accurate?
- 16 A. Yeah.
- 17 BY MR. MURRAY:
- 18 Q. Okay. And you talked about
- 19 that you traveled through a door ---
- 20 A. Right.
- Q. --- to access the 48-inch
- 22 belt. Could you point that out to
- 23 me?
- 24 A. Well, it's either in this
- 25 stopping room right here, or this

O1 one. But I'm almost positive it's in

- 02 this area here.
- 03 Q. Okay. And just for a matter
- 04 of reference, if this might help you.
- 05 This dot here ---
- 06 A. That's a borehole.
- 07 Q. --- that's the borehole where
- 08 you see the water coming in. So I
- 09 want to, just for ---.
- 10 A. You know what I mean? That
- 11 door's right there in that. I know

- 12 for a fact, because I remember you go
- 13 up the break and there's the door.
- 14 Q. Okay. So just for reference,
- 15 I'm going to highlight this borehole,
- 16 which on this map, it's about --- it
- 17 looks like ---
- 18 A. About 40 feet.
- 19 Q. --- about 40 feet to the right
- of survey station of 3233. And when
- 21 I say to the right, that's looking
- 22 inby toward the Number Two section.
- 23 And I'm going to label that as
- 24 borehole. Okay. Now, would you
- point out which ---?

- 01 A. Right there.
- 02 MR. MURRAY:
- 03 So now Mr. Hensley is
- 04 now pointing to the stopping,
- 05 which would be --- if you're
- 06 looking into the mine, it
- 07 would be to the right of
- 08 survey station 3230, which is
- 09 located on the 48-inch
- 10 beltline. I'm going to
- 11 highlight this stopping.
- 12 BY MR. MURRAY:
- 13 Q. And you've indicated that this

- 14 particular stopping that we've
- 15 highlighted to the right of survey
- 16 station 3230 is the stopping that you
- 17 traveled through?
- 18 A. Well, we just put that door
- in, because they was fire bossing ---
- 20 you have to fire boss that seal every
- 21 shift.
- 22 Q. Okay.
- 23 A. So we put that door in just
- 24 for that reason.
- 25 Q. Okay. So I'm going to mark

- 01 this door in this particular
- 02 stopping, ---
- 03 A. Right.
- 04 Q. --- which on the map that we
- 05 have in front of us, it only
- 06 indicates a stopping. So I'll put a
- 07 seal on number 480 door. Do you
- 08 remember which way that door opened?
- 09 A. No, I do not.
- 10 Q. Did you have to pull it toward
- 11 the intake, or did you have to push
- 12 it to get into it?
- 13 A. It seemed like you had to push
- 14 it. I really can't remember to be
- 15 honest. I can't remember if you had
- to pull it open or push it out.

- 17 Q. In any event, I'm going to put
- 18 a door sign right here.
- 19 ATTORNEY HEATH:
- 20 Excuse me. If we could
- 21 just go off the record for
- just a moment.
- 23 OFF RECORD DISCUSSION
- MR. MURRAY:
- 25 Okay. It was brought

- 01 to my attention that the
- 02 highlighter that we're using
- 03 to depict some of these
- 04 locations may not show up as a
- 05 copy, so I'm going to go back
- 06 over those highlighted areas
- 07 with a red pen to depict these
- 08 locations. So the first would
- 09 be the seal. I'll circle the
- 10 seal with a red pen. We'll go
- 11 back to the borehole. I'll
- 12 circle the borehole with the
- 13 red pen. We'll go back to the
- 14 door that we've indicated
- 15 between the primary escapeway
- 16 and the alternate escapeway
- 17 and circle it with the red
- 18 pen.

- 19 BY MR. MURRAY:
- 20 Q. So you guys, as a group,
- 21 traveled through this door?
- 22 A. Right.
- 23 Q. When you're on the other side
- of the door, at what point did you
- 25 determine that there were two miners

- 01 that weren't accounted for?
- 02 A. When we went under the
- 03 beltline, because, you know, they
- 04 done turned the belt off. We crawled
- 05 under the beltline and took a head
- 06 count and noticed they was gone.
- 07 Q. Who took that head count?
- 08 A. I think everybody counted. I
- 09 mean, I'm not real sure which one was
- 10 actually counting.
- 11 Q. Okay. And at some point, did
- 12 somebody travel back through that
- 13 door?
- 14 A. Yeah. I'm not real sure if
- 15 they went completely through the door
- in this area, but I know for a fact
- 17 that I did go to that door and opened
- 18 that door and was screaming and
- 19 hollering to see if they would
- 20 answer, you know. And nobody
- answered, no.

- 22 Q. Okay. When you had that door
- open, did it seem like the smoke was
- trying to get into the belt?
- 25 A. No.

01 Q. Did it seem like fresh air was

- 02 coming out of the belt?
- 03 A. It seemed like fresh air was
- 04 coming out of the belt.
- 05 Q. Okay. Now, the --- and I'm
- 06 not going to hold you to the 650, but
- 07 you made a gas check ---
- 08 A. Right.
- 09 Q. --- with the detector that you
- 10 thought indicated 650 parts per
- 11 million?
- 12 A. Right.
- 13 Q. Could you point on here where
- 14 you made that gas check?
- 15 A. Not to be exact. But like I
- 16 said, we traveled this four-foot
- 17 beltline to right in this area right
- 18 here and come out this man door.
- 19 Q. Okay. Just while we're
- 20 talking ---.
- 21 MR. MURRAY:
- 22 He's indicated that the
- 23 crew traveled outby in the 48-

- inch belt entry to survey
- 25 station 2859 in that belt

- 01 entry, and then exited through
- 02 a door back into the intake.
- 03 And I'm going to circle that
- 04 door that he says that they
- 05 exited.
- 06 MR. FARLEY:
- 07 What was that span,
- 08 again?
- 09 MR. MURRAY:
- 10 The span was in the
- 11 belt entry, and it's 2859.
- 12 BY MR. MURRAY:
- 13 Q. Could you take a guess at what
- 14 location from the time you entered
- 15 until the time you exited to measure
- 16 the 650 parts per million?
- 17 A. Well, we come down, I went
- 18 through the door, then we went back
- 19 up this way. And I'm thinking right
- 20 around this area right in here, I was
- 21 thinking it was coming straight up
- from the mother drive head. I mean,
- 23 it was roughly that area.
- Q. Okay. So Mr. Hensley's
- 25 depicted that he's made the gas check

- 01 in the area of survey station 3243,
- 02 which is located on the 48-inch belt
- 03 structure. And this would be right
- in line with the longwall belt. As 04
- 05 you traveled outby in the belt entry,
- 06 did you ever encounter any smoke
- 07 visible?
- 80 A. No. You know, not until I
- 09 come back up the beltline. The whole
- time we was walking the beltline, no, 10
- there was no smoke or anything. 11
- 12 Q. When you retreated on the
- beltline to come back into the mine 13
- in the inby direction ---14
- A. Right. 15
- Q. --- to make this gas check, at 16
- 17 that time, did you observe any
- visible smoke in the belt entry? 18
- 19 A. Not until, you know, that spot
- 20 right there, you know what I'm
- saying. It was coming --- you could 21
- see it coming through the stopping, 22
- 23 and it was pouring into it, and it
- 24 was going straight up the 48-inch
- 25 beltline. It was all coming this

01 way.

02

Q. And could you describe it as

- 03 being light, thick?
- 04 A. Thick.
- 05 Q. How far was your visibility,
- of if you could guess?
- 07 A. From where I was standing,
- 08 there was smoke coming in, and I'd
- 09 say, if you was in the smoke, you
- 10 couldn't see two-foot, if that far.
- 11 O. And what color was the smoke?
- 12 A. I'm going to say blue/gray,
- gray --- I really can't remember, but
- 14 I know it was gray-like.
- 15 Q. Okay. As you traveled back
- 16 inby, at this location, that would be
- 17 the first location where you
- 18 encountered the smoke?
- 19 A. Right.
- 20 Q. Was there a hole in some of
- 21 these stoppings that allowed that
- 22 smoke to get in there?
- 23 A. I can't say for a fact,
- 24 because --- you know, I could not see

- 25 this stopping. I just come up the
- 01 48-inch beltline. There had to be.
- 02 You know, the way I took it, there
- 03 had to be at least a hole or
- 04 something for that smoke to come over
- 05 there.

- 06 Q. Do you know if these guys
- 07 closed this door behind you?
- 08 A. I wasn't the last one through
- 09 it, so I couldn't tell you.
- 10 Q. Did anybody on your crew walk
- 11 over to the mother drive?
- 12 A. Yeah, I walked --- me and ---
- 13 it seemed like Mike Plumley walked
- 14 down toward the mother drive, and
- 15 they was --- Pat Calloway, I think he
- 16 might have walked with us, too. And
- 17 at that time, I think --- I cannot
- 18 remember who Pat Calloway had
- 19 standing there at the door at, you
- 20 know, the double doors. I can't
- 21 remember. But yeah, we walked down,
- 22 and Pat and them said we were going
- 23 to have to leave. But I can't
- 24 remember who was standing at that
- double door, I cannot remember.

01 Q. How did you get there?

- 02 A. I can't remember if we ---
- 03 usually from travel, we'll turn this
- 04 corner right here and come this way,
- 05 I think. Or wait. I really can't
- 06 --- I'm confused about this map, and
- 07 I drive it every day, but ---. Or we

- 08 might come up and go like this, I
- 09 think. That's how we'd do it, yeah.
- 10 That's how we do it. We come up this
- 11 entry, turn the mantrip and come like
- 12 this right here.
- 13 Q. Okay. So on this particular
- 14 day, for you to travel from where you
- 15 exited the alternate escapeway ---
- 16 A. Right.
- 17 Q. --- to get to the mother
- 18 drive, you traveled --- just walk
- 19 with me.
- 20 A. Up two breaks. It's right
- 21 here.
- 22 Q. Okay. You exited the door,
- 23 and you entered back into the intake
- 24 at survey station 2855; is that
- 25 right?

01 A. Yeah.

- 02 Q. Okay. And then you traveled
- 03 inby towards survey station 2236?
- 04 A. Yeah.
- 05 Q. You with me? Get me there
- 06 again.
- 07 A. Then on up to 2156.
- 08 Q. And then you continued inby to
- 09 survey station 2156.
- 10 A. And then on to 3157.

- 11 Q. You made a right-hand turn and
- 12 you traveled to survey station 3157.
- 13 A. And over to 2236.
- 14 Q. And you traveled inby to
- 15 survey station 2236.
- 16 A. Down two breaks to 3192.
- 17 Q. Down to the right, two breaks
- 18 to survey station 3192.
- 19 A. And over to 3204.
- 20 Q. And then inby to survey
- 21 station 3204.
- 22 A. And that's basically where we
- 23 stopped at, because that boy was
- 24 standing at that door waiting to see
- 25 if anybody would come through the

01 doors or whatever. And we decided we

- 02 had to leave.
- 03 O. Who was that miner?
- 04 A. I'm not real sure. It seems
- 05 to me like it was Joe Rhodes
- 06 (phonetic), but I'm not real sure, I
- 07 believe. But I don't know.
- 08 Q. Okay. And the miner was
- 09 standing at the door, the equipment
- 10 door, just inby survey station 3238?
- 11 A. Yeah.
- 12 Q. Did the door close?

- 13 A. Yes.
- 14 Q. What did you see in this area?
- 15 A. I seen the fresh air, you know
- 16 what I'm saying. It wasn't smoky.
- 17 There wasn't a lot of smoke, but ---.
- 18 Q. Where do you think the smoke
- 19 was going from that point?
- 20 A. My opinion, I'm saying smoke
- 21 was coming up through this way and it
- 22 was filling all this here.
- MR. MURRAY:
- 24 He's indicated that the
- 25 smoke was traveling inby from
- 01 survey station 3249, which
- 02 would be near the tail area of
- 03 the 72-inch belt conveyer that
- 04 receives the coal from the
- 05 longwall belt.
- 06 BY MR. MURRAY:
- 07 Q. Do you know if there was
- 08 stopping in right here?
- 09 A. No. We usually --- I ain't
- 10 around that, you know what I'm
- 11 saying. Most of the time we come
- 12 through here and just go onto the
- 13 section. It's very rare to even get
- 14 around that six-foot beltline or
- 15 longwall belt, or ---.

- 16 Q. How do you think all that
- 17 smoke could have got out of this area
- 18 so quickly and contaminated the
- 19 intake?
- 20 A. I've been told, and this is
- 21 hearsay, not mine, that this stopping
- 22 was out.
- Q. And the stopping that you're
- 24 pointing to is the stopping that
- 25 would have been inby the tailpiece of

01 the 72-inch belt, which is just inby

- 02 survey station 3249. Because you
- 03 traveled back inby on the 42-inch
- $04\,$   $\,$  belt toward the area that you made
- 05 the gas check, and you talked about
- 06 observing some smoke at this point.
- 07 Did you see any smoke laying in the
- 08 crosscuts as well?
- 09 A. No.
- 10 Q. Did you look?
- 11 A. I didn't really look, but you
- 12 know, it seems if it had been laying
- 13 there, it would have been smoky on
- 14 the beltline also.
- 15 Q. So why would you think that
- 16 this smoke would adhere into this
- 17 intake?

- 18 A. It was the only way it could
- 19 go, my opinion, you know what I'm
- 20 saying. Where else could it go? You
- 21 got your airflows coming up the
- 22 intake.
- 23 Q. Who told you this stopping was
- 24 out?
- 25 A. I really can't remember. Just

- 01 talk around the mines that that
- 02 stopping was not --- you know, out.
- 03 Q. And the stopping I'm referring
- 04 to is the stopping inby the tail of
- 05 the 72-inch belt, just for the
- 06 purposes of ---.
- 07 A. Right. Because they just put
- 08 in all this belt structure.
- 09 Q. The person that told you, did
- 10 they think that this stopping was
- 11 out?
- 12 A. Uh-huh (yes).
- 13 Q. Did they tell you before or
- 14 after the accident?
- 15 A. It seemed like after.
- 16 Q. So you learned about the
- 17 possibility of this stopping being
- 18 out after the 19th?
- 19 A. Right.
- 20 Q. And you talked about the

- 21 construction work and the
- 22 installation of the 72-inch belt, and

- 23 exactly where was that?
- A. What do you mean, where all 24
- 25 the structure is?

01 Q. Yeah. Could you point that

- 02 out?
- 03 A. They've got structure all the
- way down to where we cross over, 04
- 05 which I'm not real sure where that
- 06 is. But it runs all the way along
- this way right here to all the way 07
- right up in here, I guess. I'm not 80
- 09 real sure where it ends at.
- MR. MURRAY: 10
- Okay. So he's 11
- 12 indicated that the structure
- 13 is a continuation of the 72-
- inch belt, and it travels inby 14
- 15 toward the Two section to ---.
- A. I couldn't tell you where the 16
- end of it is. 17
- 18 BY MR. MURRAY:
- 19 Q. Is it continuous, or are there
- breaks in it? 20
- 21 A. Well, there was breaks in ---
- because we cross over, under or 22

- 23 through it. I'm thinking right in
- this area right here.
- MR. MURRAY:

- 01 He's indicated that
- 02 there may be a break in the
- 03 structure between survey
- 04 station 3233 and survey
- 05 station 3309.
- 06 BY MR. MURRAY:
- 07 Q. The stopping that we keep
- 08 talking about at the tail of the 72-
- 09 inch structure, is there a
- 10 possibility that thing could have
- 11 been removed to facilitate the
- 12 installation of the 72-inch
- 13 structure?
- 14 A. Yeah. That's what I thought.
- 15 You know, when they told me, that's
- 16 what I figured they took it out for.
- 17 Q. So that may --- in your mind,
- 18 that makes sense of why it would be
- 19 missing?
- 20 A. Well, right, depending on
- 21 where they put in the structure,
- 22 that's --- I figured it was missing,
- 23 you know. And they told me it was.
- 24 Q. Okay. I guess we can sit down
- 25 now.

- 01 ATTORNEY BELL:
- 02 Mr. Hensley, would you
- 03 sign your name in the right-
- 04 hand corner of that map,
- 05 please, and date it?
- 06 MR. MURRAY:
- 07 And for the record,
- 08 we're going to refer to this
- 09 map that we've marked up as
- 10 Exhibit A.
- 11 (Exhibit A marked for
- 12 identification.)
- 13 A. And what else do you want on
- 14 it?
- 15 ATTORNEY BELL:
- 16 Put the date on there.
- 17 MR. MURRAY:
- 18 And Mr. Hensley has
- 19 certified the information by
- 20 his signature and date. Thank
- 21 you, Mr. Hensley.
- 22 BY MR. MURRAY:
- 23 Q. I'm going to try to catch up
- 24 with you now. Now, you told me a lot
- of information, and I appreciate

59

01 that. I was following in my mind as

- 02 you talked, I could walk in your
- 03 shoes. But just for my own
- 04 information and clarification, you
- 05 guys went up onto the longwall as you
- exited the mine. 06
- 07 A. Uh-huh (yes).
- 80 Q. How did you get to the
- 09 longwall?
- 10 A. We come straight down the
- intake and went through the crossover 11
- 12 right there, through that area right
- 13 there.
- Q. Okay. Is that --- we've 14
- referred to that as Number Two cut-15
- 16 through?
- 17 A. Yeah, I guess that's what they
- call it. And we went through there 18
- and went over to the longwall belt, 19
- 20 and I'm not real sure exactly where
- 21 at in that area.
- Q. Were you walking? 22
- A. Yes. 23

24 Q. Okay. Did you have to travel

60

25 through a door?

A. We went through them double 01

- doors right there.
- 03 MR. MURRAY:
- Okay. And Mr. 04

- 05 Hensley's indicated that as
- 06 they traveled to the longwall,
- 07 they traveled through the
- 08 double doors and the cut-
- 09 through, and it would be in
- 10 the middle entry, just inby
- 11 survey station 2495.
- 12 BY MR. MURRAY:
- 13 Q. So when you arrived up on the
- longwall, were you up on the longwall
- 15 face area?
- 16 A. I'm not real sure where the
- 17 longwall's at, you know what I'm
- 18 saying. All we done was went over to
- 19 the beltline, you know what I'm
- 20 saying. As far as --- no, I didn't
- 21 see no shields or nothing, so I don't
- 22 know nothing about longwall.
- 23 Q. Okay. But you're actually
- over on the longwall belt entry?
- 25 A. Right.

01 Q. Okay. Did you smell any

- 02 smoke?
- 03 A. No.
- 04 Q. Did you see any smoke?
- 05 A. No.
- 06 Q. What did you do when you got

- 07 there?
- 08 A. We was talking to Terry Shadd
- 09 and Dusty Dotson, and we decided to
- 10 block off all areas, all four
- 11 entries, you know, keep air from
- 12 going up to the mother drive belt.
- 13 So me and Terry Shadd and them went
- 14 and cut the longwall belt, dropped
- 15 the structure down, hung a curtain
- 16 across it while other people, you
- 17 know, hung curtain across the other
- 18 entries.
- 19 Q. Did you know how far inby that
- 20 angle that you hung those checks?
- 21 A. We went back up to here, back
- in up toward the ---.
- 23 Q. Okay. You traveled in an
- 24 outby direction back toward the
- 25 mother drive?

01 A. Right.

- 02 Q. And do you know how far,
- 03 roughly, from this intersection?
- 04 A. I'm thinking, maybe a break
- 05 and a half, two breaks. Yeah, up in
- 06 that area. Yeah, probably right in
- 07 there.
- 08 Q. And you hung a check in each
- 09 entry?

- 10 A. Yeah. You know, I personally
- only hung the one on the beltline
- 12 itself, but I did see one in the
- other entry, but I'm not --- in the
- 14 other two entries, but I don't know
- 15 about the other one.
- 16 Q. Which entry don't you know
- 17 about?
- 18 A. The one where your finger's
- 19 at.
- 20 Q. So just for clarification, you
- 21 personally worked on the check in the
- 22 belt entry?
- 23 A. Right.
- Q. And that check would have been
- 25 installed just inby survey station
- 01 3286 in the belt entry. And then you

- 02 personally observed the check in the
- 03 Number Two entry just inby survey
- 04 station 3287. And you personally
- 05 observed a check in the Number Three
- 06 entry, just inby survey station 3283.
- 07 And you're unsure ---?
- 08 A. I ain't got a clue about that.
- 09 Q. You're unsure whether there
- 10 was a check in the Number Four entry,
- 11 which would be just inby 3284?

- 12 A. Right. And I'm not real
- 13 positive if that's exactly where we
- 14 was at in that area, but it was
- 15 roughly that area.
- 16 Q. Okay. But it was definitely
- on the outby side of this big
- 18 intersection where the three entries
- 19 from the cut-through intersects with
- 20 the ---
- 21 A. Right.
- 22 Q. --- longwall headgate entry?
- 23 A. Yes.
- Q. And what was the purpose of
- 25 installing those checks?

01 A. Trying to, you know, choke the

- 02 air down from the fire area, you know
- 03 what I'm saying. And keep --- you
- 04 know, the less airflow, you know, the
- 05 fire won't burn. Choke the air off
- 06 of it. And that's what we was trying
- 07 to do.
- 08 Q. Who directed you to install
- 09 those checks?
- 10 A. They was --- Terry Shadd was
- 11 up there and Dusty Dotson. That's
- 12 the ones, you know, decided we need
- 13 to do it.
- 14 Q. Which way was the air

- 15 direction in those entries?
- 16 A. I couldn't tell you. I was
- 17 not paying attention. It seems to me
- 18 like it was going outby or, you know,
- 19 up toward the mother drive head.
- 20 Q. It was going from the face
- 21 toward the mother drive?
- 22 A. Yes.
- 23 Q. And what was the thought
- 24 process again?
- 25 A. To choke the air away from the

- 01 fire, take the air away from the
- 02 fire.
- 03 MR. MURRAY:
- 04 Okay. For the record,
- 05 as Mr. Hensley described where
- 06 these checks were installed in
- 07 the three entries in the mine
- 08 headgate longwall, I indicated
- 09 them with a sideway S for the
- 10 purpose of clarification.
- 11 BY MR. MURRAY:
- 12 Q. Okay. Let's go back up into
- 13 the section for a second. And tell
- 14 me again how you learned of the order
- 15 to evacuate.
- 16 A. I think it was Joe Hunt who

- 17 come and told us that we had to leave
- 18 the section, there was a fire at the
- 19 mother drive.
- Q. And do you know who told him?
- 21 A. Mike Plumley.
- Q. Do you know who told Mike?
- 23 A. No. I know he was on the
- 24 phone with somebody, but I don't know
- 25 who exactly he was talking to.

01 Q. Did you personally speak with

- 02 anybody on the telephone?
- 03 A. No.
- 04 Q. Where was the mantrip located
- 05 up on the Two section?
- 06 A. I can show you on the map,
- 07 but ---.
- 08 Q. Go ahead.
- 09 A. Can I show you on the map?
- 10 Q. Sure. Yeah.
- 11 A. Where exactly when we got on?
- 12 Q. Yes.
- 13 A. In this area. Yeah, right in
- 14 that area.
- 15 Q. Here's the belt for the
- 16 section.
- 17 A. It was located about there.
- 18 Q. Right here?
- 19 A. Right there.

- MR. MURRAY:
- 21 Okay. He's indicated
- 22 that the mantrip is located in
- 23 the northeast main, Number
- 24 Four entry, which would be
- 25 adjacent to the 48-inch belt

- 01 just outby survey station
- 02 4214.
- 03 A. That's 4212.
- 04 MR. MURRAY:
- 05 You have better eyes
- 06 than I do. I'm sorry. 4212.
- 07 BY MR. MURRAY:
- 08 Q. Tell me about the scene of the
- 09 assembly, the crew at that mantrip.
- 10 A. Well, I'm not --- we all got
- 11 on the ride. And the only two that
- 12 was not on the ride when we started
- was Billy Mayhorn and Gary Baisden.
- 14 And we picked him up three breaks
- outby, and then we told them there
- 16 was a fire at the mother drive. Then
- 17 everybody was all right.
- 18 Q. Who was driving the mantrip?
- 19 A. Me.
- 20 Q. Did you smell any smoke at
- 21 that time?

- 22 A. No.
- Q. Did you see any?
- 24 A. No.
- 25 Q. Who decided what route of

- 01 travel to take to get out of the
- 02 mine?
- 03 A. I guess, I did, but I was
- 04 driving. When I stopped the bus, we
- 05 decided to go to the 48-inch
- 06 beltline.
- 07 Q. Who was --- who decided?
- 08 A We all did, I guess.
- 09 Q. At what point did you start to
- 10 encounter smoke?
- 11 A. About, I'm going to say, three
- 12 breaks outby Ten headgate.
- 13 Q. Do you want to point?
- 14 A. Yeah. I'm going to say right
- 15 around this area right here.
- 16 Q. In this entry?
- 17 A. Yeah, Number Five entry.
- 18 Q. Okay.
- MR. MURRAY:
- 20 Mr. Hensley's indicated
- 21 that his first encounter with
- 22 smoke was in the Five entry of
- 23 northeast main between survey
- 24 stations 3602 and 3591.

25 A. I could smell, you know,

- 01 probably in this area right here, but
- 02 I didn't see it until ---.
- 03 BY MR. MURRAY:
- 04 Q. Okay. I'm going to say
- 05 visible here?
- 06 A. Right.
- 07 Q. Okay. Where did you smell it?
- 08 A. I'm going to say probably
- 09 around in this area here.
- 10 Q. In this area, too?
- 11 A. Yeah, Number Five entry,
- 12 around this area.
- 13 Q. Where I'm pointing?
- 14 A. Yeah, probably.
- MR. MURRAY:
- 16 Okay. He first smelled
- 17 smoke at survey station 3650
- 18 of the Number Five entry of
- 19 northeast main.
- 20 BY MR. MURRAY:
- 21 Q. Where did the smoke get thick
- 22 at?
- 23 A. Let's see here where I turned
- 24 at. It was pretty thick --- see,
- 25 where I turned at.

- 01 Q. Here's the borehole. Here's
- 02 the ---.
- 03 A. Right around this area right
- 04 here, got real thick and I turned the
- 05 mantrip up this entry and turned. It
- 06 was real thick in that area right
- 07 there.
- 08 Q. In the crosscut or in the ---?
- 09 A. Yes, in the crosscut. It was
- 10 not so thick that I couldn't see, but
- 11 when I rounded the corner, it was so
- 12 thick I couldn't see my hand in front
- of my face.
- MR. MURRAY:
- Okay. Mr. Hensley's
- 16 indicated that he made a
- 17 right-hand turn as he's
- 18 traveling outby at survey
- 19 station 3547 and traveled from
- 20 the Number Five entry to the
- 21 Number Four entry and as he
- 22 made that right-hand turn, he
- 23 observed thicker smoke in the
- 24 crosscut between the Number
- 25 Four and the Number Five
- 01 entry. And this would be
- 02 between survey stations 3546
- 03 and 3547.

- 04 BY MR. MURRAY:
- 05 Q. Okay. Could you tell me what
- 06 you saw whenever you made the turn
- 07 into the Number Four entry at survey
- 08 station 3546?
- 09 A. Very thick smoke. I mean,
- 10 probably visibility two feet, two,
- 11 three feet.
- 12 Q. When the mantrip made it to
- 13 this intersection, what happened
- 14 then?
- 15 A. I stopped, shut it off and we
- 16 all got out. I think right here is
- 17 where we donned the rescuers. And I
- 18 couldn't see the manbus, so I
- 19 couldn't tell you how far I was from
- 20 it. You know, I might be from here
- 21 to that corner over there. And we
- donned our rescuers.
- MR. MURRAY:
- 24 I've indicated that
- 25 they parked the manbus right
- 01 at survey station 3546 on the

- 02 map. And Mr. Hensley has
- 03 indicated that the
- 04 self-rescuers were donned in
- 05 the area between 3546 and

- 06 3537.
- 07 BY MR. MURRAY:
- 08 Q. Is there a reason why you made
- 09 this right-hand turn here? Is that
- 10 your normal route of travel?
- 11 A. Oh, there's a stopping. Yeah,
- 12 that's the normal route of travel.
- 13 Q. Can you walk me through your
- 14 route of travel from where you get on
- 15 the mantrip at the section?
- 16 A. Come over that --- turn down
- 17 the hill, come straight in.
- 18 Q. Okay.
- MR. MURRAY:
- 20 So he's ---.
- 21 A. I went up a break from it.
- MR. MURRAY:
- Okay. So his route of
- 24 travel would have been from
- where the mantrip was parked,
- 01 he would have traveled inby in
- 02 the Number Four entry towards
- 03 survey station 4212.
- 04 A. Right there.
- 05 MR. MURRAY:
- 06 Made a right-hand turn
- 07 towards survey station 4228,
- 08 4228.

- 09 A. And then went outby.
- MR. MURRAY:
- 11 And then went outby in
- 12 the Number Five entry toward
- 13 survey station 4227.
- 14 A. Right. All the way down.
- MR. MURRAY:
- 16 And then continued
- 17 outby in the Number Five entry
- 18 until he got to survey station
- 19 ---
- 20 A. 3547.
- MR. MURRAY:
- 22 --- 3547. I've
- 23 indicated the route of travel
- 24 with a series of red arrows.
- 25 BY MR. MURRAY:

01 Q. Okay. That gets us to where

- 02 we're at. This route that we just
- 03 described there, is that your primary

- 04 escapeway?
- 05 A. Yeah. Number Four --- Number
- 06 Four and Number Five entry both. And
- 07 Number Four is primary escapeway, but
- 08 we always just went down Number Five.
- 09 Q. Is it marked? Is it marked?
- 10 A. What with reflectors?

- 11 Q. How is it marked, if you can
- 12 describe?
- 13 A. Yeah, it's marked with
- 14 reflectors, visible reflectors.
- 15 Q. And as the driver of the
- 16 mantrip, how do you know which way to
- 17 travel?
- 18 A. I don't understand that
- 19 question.
- 20 Q. You're the operator of the
- 21 mantrip?
- 22 A. Right.
- 23 Q. How do you know which way to
- 24 --- how do you know when to turn
- 25 right and when to go straight and

- 01 ---?
- 02 A. I just do, I do it every day,
- 03 you know what I mean? You just know.
- 04 I mean, I know the road, you know.
- 05 Q. Is it marked in any way?
- 06 A. As far as --- I'm not
- 07 understanding.
- 08 Q. Is it marked in any way for
- 09 you to understand which route that
- 10 the roadway would be on?
- 11 A. No.
- 12 Q. Okay. When you left the
- 13 mantrip, it's parked and you exited

- 14 the mantrip, who made the decision to
- don the SCSRs?
- 16 A. We all said put on your
- 17 rescuers. I mean, you know what I'm
- 18 saying? It wasn't on one person, you
- 19 know. You know, everybody said,
- let's put on our rescuers.
- 21 Q. Did you know where Don Bragg
- 22 was at that time?
- 23 A. No.
- Q. How do you think Mr. Bragg got
- separated from the group?

01 A. Panic. I mean, knowing, you

- 02 know, he's a little edgy anyways and
- 03 he panicked and took off. You know,
- 04 I didn't see him, so you know, I ---
- 05 but my opinion of him, he panicked
- 06 and took off.
- 07 Q. Do you know if he was having
- 08 any trouble putting his SCSR on?
- 09 A. Couldn't tell you. Like I
- 10 said, didn't see him. You know, I
- 11 don't know.
- 12 Q. Do you know where Mr. Hatfield
- 13 was at that time?
- 14 A. Yeah, he was right beside me.
- 15 Q. Was he having any trouble

- 16 putting his SCSR on?
- 17 A. Yeah. Well, yeah. You know
- like I said earlier, you know, the 18
- 19 last thing I heard him say was how
- the F do you get this thing on. 20
- 21 Q. Do you know if he ever got it
- 22 on?

- 23 A. He shut up so I took that he
- had it on. I don't know. 24
- 25 Q. How do you think he got

separated from the group?

- A. Panic. You know, I couldn't 02
- tell you. 03
- 04 Q. Did you have any trouble
- 05 putting your SCSR on?
- A. No. You know, we just had 06
- 07 retraining the Saturday before and
- 80 you know, they put us in a room with
- 09 lights out and had us don our
- rescuers, you know. I didn't have no 10
- 11 trouble with it.
- 12 Q. And when was the first time
- that you realized that Mr. Bragg and 13
- 14 Mr. Hatfield were missing?
- A. When we went over on the 15
- 16 48-inch belt line. I mean, we took a
- 17 head count and they was gone.
- 18 Q. Do you know what caused the

- 19 fire?
- 20 A. They said --- this was from
- 21 Bryan Cabell, said that a dolly
- 22 cocked sideways on the storage unit
- 23 and it caught on fire. You know, as
- 24 far as that, I ain't got a clue.
- 25 Q. Did you ever travel the

01 primary escapeway from the Number Two

- 02 section for any other reason,
- 03 escapeway drill or ---?
- 04 A. Well, yeah, we done escapeway
- 05 drills, you know. I don't know, they
- 06 do them pretty regular. Me
- 07 personally, usually the crew, you
- 08 know, we'll split up and some of us
- 09 will walk the primary escapeway, but
- 10 90 percent of the time we're in the
- 11 primary escapeway riding. And then,
- 12 you know, once we leave for the
- 13 primary escapeway, they've walked it
- 14 out.
- 15 Q. Did you ever notice any pipes
- or holes in stoppings or anything
- 17 along this primary escapeway?
- 18 A. I don't pay no attention. I
- 19 can't say for a fact, you know what
- 20 I'm saying?

- 21 Q. Back to this longwall, when we
- 22 talked about hanging these curtains
- 23 to keep the fire off the --- or keep
- 24 the air off the fire, do you know if
- 25 they hung any curtains in these

01 cut-throughs to help reduce airflow?

- 02 A. Couldn't tell you.
- 03 Q. Do you maintain an escapeway
- 04 map up on the section?
- 05 A. Yes.
- 06 Q. Where is it at?
- 07 A. Power box.
- 08 Q. When was the last time you
- 09 looked at it?
- 10 A. I'm going to say a week before
- 11 that happened.
- 12 Q. What about on the surface, is
- 13 there a location outside?
- 14 A. Yeah, there's maps everywhere.
- Everywhere.
- 16 Q. Where would the escapeway map
- on the surface area be posted for you
- 18 guys to see?
- 19 A. Well, we got one right where
- 20 we all gather every day, you know
- 21 what I'm saying? It's on a big
- 22 table.
- Q. And this big table, is that

- 24 --- is that downstairs?
- 25 A. Yes.

- 01 Q. Before you'd walk out ---?
- 02 A. Right where we check in, check
- 03 out.
- 04 Q. Oh, okay. Right in the
- 05 check-in, check-out board?
- 06 A. Right.
- 07 Q. And where's this map located
- 08 on that table?
- 09 A. Right in the middle of it. I
- 10 mean, it's on top of it, you know
- 11 what I'm saying, laid out. It's
- 12 plastic Plexiglas or something on top
- 13 of it.
- 14 Q. Okay. What's that table for,
- 15 I guess? I know which table you're
- 16 talking about. It's kind of right in
- 17 the middle of the area.
- 18 A. Yeah.
- 19 Q. What's the table, itself, used
- 20 for, other than to hold the map under
- 21 the Plexiglas?
- 22 A. We set our dinner buckets and
- 23 stuff on it when we come in. I mean,
- I don't know what else it's used for.
- 25 Q. Is there normally food or

- 01 anything like that on it or ---?
- 02 A. Well, yeah, I've seen food on
- 03 it.
- 04 Q. Okay. When you --- back to
- 05 the escapeway drill, could you show
- 06 me on the map where the primary
- 07 escapeway is, which may be different
- 08 than your route of travel?
- 09 A. Yeah. Leaving the section?
- 10 MR. MURRAY:
- 11 Okay. I'm going to ---
- 12 I have a blue pen that I'm
- going to mark the primary
- 14 escapeway with as he talks.
- 15 A. Number Three entry.
- MR. MURRAY:
- 17 Okay. He's traveling
- 18 outby in the Number Three
- 19 entry of the Two section
- 20 towards survey station 42 ---
- 21 A. Twelve (12).
- MR. MURRAY:
- Does it go all the way
- 24 to here?
- 25 A. Yeah.

- 01 MR. MURRAY:
- 02 Towards survey station

- 03 4212. Okay.
- 04 A. All the way down to Number
- 05 Four.
- 06 MR. MURRAY:
- 07 And he's making a
- 08 left-hand turn at survey
- 09 station 4212 and he's
- 10 traveling outby in the Number
- 11 Four entry of the Northeast
- 12 main section.
- 13 A. All the way down. All the way
- 14 down to --- I want to say, it comes
- 15 straight down. See where I'm at
- 16 here? All the way down to a
- 17 overcast, which is right here. Come
- 18 across the overcast.
- MR. MURRAY:
- 20 Down here?
- 21 A. Right, come down.
- MR. MURRAY:
- Okay. He's traveling
- 24 in this Number Four entry of
- Northeast main in an outby
- 01 direction all the way to
- 02 survey station 3211. And I've

- 03 indicated that route of travel
- 04 with a blue pen in arrows

- 05 pointing in an outby
- direction. And at survey 06
- 07 station 3211, he makes a
- left-hand turn, which actually 80
- brings him in an inby 09
- 10 direction towards survey
- 11 station 3210.
- 12 A. Right. Across the overcast.
- 13 MR. MURRAY:
- 14 Over the top?
- 15 A. Yeah.
- MR. MURRAY: 16
- Okay. Then he crosses 17
- the overcast, which isolates 18
- 19 the 72-inch belt and travels
- 20 towards survey station 3238.
- A. Right. And then outby the 21
- 22 same way.
- MR. MURRAY: 23
- Then he makes a 24
- right-hand turn in the outby 25

- direction towards survey
- 02 station 3204.
- 03 A. To 3192.
- MR. MURRAY: 04
- 05 Continues outby to
- 3192. 06
- A. Back up the hill. 07

80	MR. MURRAY:	
09	And then turns, makes a	
10	right-hand turn and travels up	
11	toward survey station 2236.	
12	A. Really, it goes like this.	
13	MR. MURRAY:	
14	And then travels one	
15	more block inby survey station	
16	2236 and makes a left-hand	
17	turn toward survey station	
18	2156.	
19	ATTORNEY HEATH:	
20	Kenny, wouldn't that be	
21	outby?	
22	MR. MURRAY:	
23	He makes a left-hand	
24	turn	
25	ATTORNEY HEATH:	
		85
01	No, you said from this	
02	that point, you said inby,	
03	you're actually going to go	
04	outby.	
05	MR. MURRAY:	
06	Okay. So when he's at	
07	survey station 3192, he makes	
80	a right-hand turn and travels	

09 in an outby direction towards

- 10 survey station 2236, continues
- 11 outby for one more block and
- 12 makes a left-hand turn towards
- 13 survey station 2156.
- 14 A. On over to here.
- MR. MURRAY:
- This one?
- 17 A. Yeah, right here, Number Four.
- 18 MR. MURRAY:
- 19 Okay. Continues outby
- 20 past survey station 2855, and
- 21 continues ---
- 22 A. And come down.
- MR. MURRAY:
- 24 --- one block outby
- 25 survey station 2855 and then

- 01 makes a left-hand turn to
- 02 travel toward survey station
- 03 2842.
- 04 A. Then a straight shot.
- 05 MR. MURRAY:
- 06 And then continues in
- 07 that entry, which would be the
- 08 A. Four.
- 09 MR. MURRAY:
- 10 --- Number Four entry
- of north main ---
- 12 A. Yeah.

- MR. MURRAY:
- 14 --- and travels the
- 15 rest of the distance out of
- 16 the mine.
- 17 BY MR. MURRAY:
- 18 Q. Okay. In the underground mine
- 19 workings, is there something that
- 20 would indicate this direction that
- 21 you just described to me? Is there
- 22 physical markers?
- 23 A. Green reflectors.
- Q. Green reflectors would ---?
- 25 A. Coming out, red going in,

01 saying you're going the wrong way,

- 02 you know. Not supposed to happen.
- 03 Q. So if I'm traveling in an
- 04 outby direction, I would see green
- 05 reflectors the entire route that you
- 06 just described?
- 07 A. Yeah.
- 08 Q. Okay. While I've got this red
- 09 pen, we'll tie in your route of
- 10 travel on January 19th. You exited
- 11 the manbus and you talked about
- 12 traveling inby --- or I'm sorry ---
- 13 A. Out.
- 14 Q. --- traveling outby in the

- 15 Number Four entry toward survey
- 16 station 3228. You continued
- 17 traveling outby one more block and
- 18 you entered the 42-inch belt entry
- 19 --- or 48-inch belt entry through a
- 20 door on into the belt entry at survey
- 21 station 3230.
- 22 A. Right.
- 23 Q. Traveled outby in the 48-inch
- 24 belt entry. You exited the belt ---
- 25 the 48-inch belt entry at survey

- 01 station 2859.
- 02 A. Correct.
- 03 Q. We already indicated what
- 04 route that you traveled to go up to
- 05 the mother drive. Now, how did you
- 06 get to the longwall?
- 07 A. I come straight down Number
- 08 Five entry walking.
- 09 Q. This entry?
- 10 A. Yes.
- 11 Q. Okay. So you retreated back
- 12 to that door?
- 13 A. Right.
- 14 Q. From the mother drive?
- 15 A. We met the longwall crew right
- 16 there.
- 17 Q. Right here?

- 18 A. Down one.
- 19 Q. Right here?
- 20 A. Yeah, right in that area.
- 21 Q. Okay.
- 22 A. And at this time, Terry Shadd
- and Dusty Dotson got up there.
- 24 Q. Okay.
- 25 A. And then we decided, you know,

- 01 that we was going to go try to cut
- 02 off the air to it and went over
- 03 there, too.
- 04 Q. Did you pick up any self-
- 05 rescuers or anything up on this?
- 06 A. It wasn't then. But now when
- 07 we --- after we got done, they had
- 08 went up on the longwall face and got
- 09 their rescuers that they keep. I
- don't know nothing about the longwall
- 11 so I couldn't tell you. And I got
- 12 another rescuer out of their box and
- 13 put it back on my side and then we
- 14 exited the mine.
- 15 Q. How did you exit the mine from
- 16 here?
- 17 A. I went back same way we came
- 18 over to there and they had mantrips,
- 19 a couple mantrips, sitting there and

- 20 we got on and come straight down
- 21 Number Four entry.
- 22 Q. Would that have been in this
- 23 entry?
- 24 A. Yeah.
- 25 Q. At this point here, you ---

- 01 there was a mantrip?
- 02 A. Right. They had three or four
- 03 rides there.
- 04 Q. Tell me again where you met
- 05 the mantrip --- or met the longwall
- 06 crew.
- 07 A. It was right there, right
- 08 around where your pen's at there, in
- 09 that intersection outby there, right
- 10 there, they was standing there.
- 11 Q. Okay. So you met the longwall
- 12 crew ---.
- 13 A. Met on down one.
- 14 Q. Right here?
- 15 A. Right there, right in that
- 16 area.
- 17 Q. Okay. So that would have been
- in the north main?
- 19 A. Number Five entry.
- 20 Q. Number Five entry. That's
- 21 actually between survey stations 2492
- 22 and 2495. Is there more than one

- 23 entry that comes out of northeast
- 24 mains that would be marked with green
- 25 reflectors?

- 01 A. I don't know if Number Five
- 02 --- Number Four. I know Number Four
- 03 has reflectors. I've never really
- 04 paid attention to Number Five, you
- 05 know what I mean? Yeah, it does,
- 06 Number Five does have it.
- 07 Q. But you haven't indicated
- 08 coming into Number Five with your
- 09 primary escapeway?
- 10 A. Do what now?
- 11 Q. You haven't indicated when we
- 12 talked about traveling primary
- 13 escapeway, coming into Number Five?
- 14 A. Right. Right. But I mean,
- 15 it's got reflectors in it, and Number
- 16 Four and Number Five both have them.
- 17 Q. If I was up on the Number Two
- 18 section for the first time, and
- 19 somebody told me that if you need to
- 20 exit the mine in an emergency
- 21 situation and follow the primary
- 22 escapeway, how would I know which
- 23 entry to follow if both entries were
- 24 marked?

25 A. If it was me, I'd probably

- 01 come in the same way --- I'd go out
- 02 the same way I came in. You know, I
- 03 don't know.
- 04 Q. Is it common to have more than
- 05 one entry marked with reflectors,
- 06 green reflectors?
- 07 A. I don't know. You know what
- 08 I'm saying? It's the first time, you
- 09 know what I'm saying, that we've had
- 10 that many intakes? You know what I'm
- 11 saying, as far as common area.
- 12 Q. Are all these entries common?
- 13 A. No. I don't know exactly how
- 14 they have it now, but I know Four and
- 15 Five are supposed to be intake coming
- 16 up to the section. You know, as far
- 17 as I ain't real sure what all they
- 18 done. Couldn't tell you.
- 19 Q. When you were on your way out
- 20 of the mine, did anyone stop to make
- 21 a phone call?
- 22 A. No. I don't think. I really
- 23 can't remember.
- Q. The talk around the mine about
- 25 this stopping at the tail of that

- 02 something that came up in a
- 03 discussion because somebody
- 04 remembered it afterwards, that it
- 05 wasn't there or did somebody actually
- 06 see that it wasn't there? How did
- 07 this discussion ---?
- 08 A. I ain't real sure. We was
- 09 discussing how the smoke got to us so
- 10 fast, and one of them said --- and I
- 11 ain't real sure if they knowed it for
- 12 a fact or what. Said that that
- 13 stopping was out. And my opinion, it
- 14 come up by the mother drive here and
- 15 straight up the six-foot belt.
- 16 Q. Who told you that? Who told
- 17 you that stopping was out?
- 18 A. I can't remember who it was.
- 19 Q. More than one person?
- 20 A. Can't remember that neither.
- 21 Q. Are you aware of any other
- 22 fires that occurred at this mine?
- 23 A. No.
- Q. Are you aware of any incident
- 25 that may have involved flames that
- 01 the company wasn't --- or wasn't ---

- 02 didn't declare as being a fire
- 03 because of the duration?

- 04 A. No. I've heard of rollers
- 05 smoking up, you know, but never
- 06 flames or fire.
- 07 Q. Did anybody ever talk about
- 08 having to put these rollers that you
- 09 talk about smoking up, having to use
- 10 some type of a extinguisher or a
- 11 waterline or something to cool them
- off or to put this ---?
- 13 A. No, just the day of the fire
- 14 was the day to put fire
- 15 extinguishers, used fire
- 16 extinguishers down there, but you
- 17 know other than that, no.
- 18 Q. Anybody talk about using water
- 19 down there that day on that fire?
- 20 A. Not that I can remember, no.
- 21 Q. As you drive the mantrip up
- 22 onto Two section, you talk about
- 23 passing through those equipment doors
- 24 at the mother drive.
- 25 A. Uh-huh (yes).

01 Q. Were there any other doors

- 02 that you'd ever have to go through,
- 03 other than those equipment doors at
- 04 Two drive --- or I'm sorry, at the --
- 05 ---?
- 06 A. Down at the Number One four

- 07 way you go through another set of
- 08 doors.
- 09 Q. This is way outby the north
- 10 main?
- 11 A. Yeah, right.
- 12 Q. Okay.
- 13 A. But that's the only set of
- double doors that you go through to
- 15 get to Two section.
- 16 Q. Did you have to walk in any
- 17 water, as you were walking outby that
- 18 particular day?
- 19 A. No. But now when we was
- 20 hanging the curtain, there was water
- 21 coming down that longwall belt
- 22 gushing like a waterline busted or
- 23 something, you know what I'm saying?
- Q. What happened to your SCSR
- 25 that you used that day?
- 01 A. I left it laying on the rib up
- 02 there.
- 03 Q. Where abouts?
- 04 A. Right around where we met the
- 05 longwall crew.
- 06 Q. At the Number Five entry?
- 07 A. Yeah, on the corner.
- 08 Q. What do you think could have

- 09 been done to prevent this accident?
- 10 A. I couldn't tell you. In my
- 11 opinion, I don't know. Accidents are
- 12 accidents, you know. I don't know
- 13 how it could have been prevented.
- 14 Q. Do you think it could have
- 15 been prevented?
- 16 A. I don't know. I mean, you
- 17 know what I'm --- I don't know.
- 18 Couldn't tell you.
- 19 Q. Is there anything else you'd
- 20 like to tell us regarding what
- 21 happened?
- 22 A. No, nothing I can think of.
- MR. MURRAY:
- Mr. Farley?
- 25 BY MR. FARLEY:
- 01 Q. As you were leaving, leaving
- 02 the section, after you learned of the

- 03 fire, did Plumley, the foreman, tell
- 04 you anything in particular when you
- 05 had started out, give you any
- 06 specific instructions or anything at
- 07 all?
- 08 A. No.
- 09 Q. Okay. What was the overall
- 10 mood of the crew at that point?
- 11 A. We was --- well, this is what

- 12 Billy Mayhorn told me, because I was
- 13 driving, I couldn't tell you. He
- 14 said, they was just laughing, joking,
- 15 carrying on, you know, because we
- 16 honestly did not think that it was a
- 17 fire of that magnitude. You know,
- 18 they didn't say be prepared, you
- 19 know. They just said, you know, fire
- 20 at the mother drive.
- 21 Q. But you don't --- you don't
- 22 know who said that?
- 23 A. No. Mike Plumley was telling
- 24 us.
- 25 Q. Well, I guess when did it dawn

01 on you and everyone else that, hey,

- 02 we've really got a serious problem?
- 03 A. I'd say when I realized we
- 04 really had a problem was when I went
- 05 to turn out of Number Five and Number
- 06 Four.
- 07 Q. Okay. As you were driving out
- 08 towards that point, when you first
- 09 smelled the smoke or --- and then
- 10 when you first saw the smoke, did you
- or anybody else give any --- give any
- 12 thoughts to stopping?
- 13 A. No.

- 14 Q. Now, we know you encountered
- 15 the heavy smoke and you stopped.
- 16 Now, did you or Plumley or anybody in
- 17 the crew give any thought to
- 18 retreating back in the direction you
- 19 came from?
- 20 A. Well, you know, I kicked
- 21 myself in the rear end a thousand
- 22 times why I didn't stop. But you
- 23 know, I did not know it was a fire of

- 24 that magnitude.
- 25 Q. Okay. I know hindsight is

- 01 crystal clear, but --- did anybody
- 02 make mention of the --- or suggest
- 03 that you retreat at that inby, that
- 04 you guys retreat?
- 05 A. I didn't hear nobody.
- 06 Q. Okay. When you got down to
- 07 that fire area, did you see anybody
- 08 putting water on it?
- 09 A. I did not go exactly to the
- 10 fire area. You know, I just went to
- 11 that double door.
- 12 Q. Okay. All right. When you
- 13 ran into Terry Shadd and Dusty
- 14 Dotson, did they make any comments
- 15 about the fire? Did they say
- 16 anything ---

- 17 A. Uh-uh (no).
- 18 Q. --- specific?
- 19 A. They asked if everybody was
- 20 there.
- 21 Q. Okay. From the Two section
- 22 headed outby, who normally would take
- 23 care of that route? Who would
- 24 normally do the cleaning on it?
- 25 A. You're talking about the 48-

- 01 inch belt line?
- 02 Q. Yes, sir.
- 03 A. The section crew was cleaning
- 04 it before, you know, but I guess the
- 05 belt manager. I guess, Hudell
- 06 (phonetic) or somebody, I don't know.
- 07 Q. Okay. Have you guys ever had
- 08 to stop production on the Two section
- 09 to clean the belts outby the section?
- 10 A. Yeah.
- 11 Q. When was the last time you had
- 12 to do that?
- 13 A. I can't remember exactly. It
- 14 ain't been long ago.
- 15 Q. Okay.
- 16 A. It was when we was driving Ten
- 17 headgate down.
- 18 Q. Okay. Now, when you and the

- 19 Two Right crew finally left the mine,
- 20 you know, after you met the longwall
- 21 crew and you left the mine at that
- 22 point, did anybody stay in to fight
- the fire that you know of?
- 24 A. Yeah, Terry Shadd was in
- 25 there, I don't know, you know, if

- 01 they was fighting the fire, they was
- 02 trying to fight the fire or whatever.
- 03 Terry Shadd and Dusty Dotson, Fred
- 04 Horton, maybe somebody else there,
- 05 but I can't remember exactly who it
- 06 was.
- 07 Q. Okay. When you guys have your
- 08 safety meetings at the mine, where do
- 09 you normally have them?
- 10 A. Downstairs where I was talking
- 11 about, at the table where the
- 12 escapeway plan is, that's usually
- 13 where we have them.
- 14 Q. Okay. That's before you leave
- 15 the office?
- 16 A. Right, before we even ---.
- 17 Q. It's in the office; right?
- 18 Okay. I know where you're talking
- 19 about. Do you have a foreman
- 20 certification?
- 21 A. No.

- 22 Q. When you and Plumley and I
- 23 believe it was Hunt, when you went
- 24 back up the 48-inch belt and you were
- 25 going to go looking for Bragg and

- 01 Hatfield and you made the --- you got
- 02 an instrument to make a gas check.
- 03 What kind of instrument did you have?
- 04 A. It was one of the new ones,
- 05 but I'm not real sure what they're
- 06 called. They test for --- I can tell
- 07 you what they test for, carbon
- 08 monoxide, oxygen, methane and
- 09 hydrogen sulfide I think.
- 10 Q. Okay. I asked you previously
- 11 about have you ever had to come off a
- 12 section to clean a belt. What did
- 13 you have to do when you came off a
- 14 section to clean that? What
- 15 specifically, what location?
- 16 A. The whole 48-inch belt line
- 17 from Number One 48-inch head where it
- 18 dumps on six-foot belt, they wanted
- it all shoveled, cleaned and level.
- 20 Q. Okay. Now, we've been talking
- 21 about this stopping right here
- between survey station 3266 and 3249.
- When you heard someone way that that

- 24 stopping was out, do you have any
- 25 recollection at all of who might have

- 01 told you that?
- 02 A. No.
- 03 Q. Do you recall where you might
- 04 have been at the time?
- 05 A. No.
- 06 Q. Okay. When you put your
- 07 Self-Contained Self-Rescuer on after
- 08 you got off the mantrip, did you put
- 09 your goggles on, too?
- 10 A. No. I lost mine when I, you
- 11 know, popped the bottom off, I didn't
- 12 --- because I didn't kneel down when
- 13 I put it on, you know, when I popped
- 14 the bottom off, they hit the ground.
- 15 Q. Okay. Well, when you guys ---
- 16 after you got all your rescuer stuff
- on and you went down past the cribs
- 18 and into the door, how did you travel
- 19 that entry --- down that entry?
- 20 A. I was walking the rib.
- Q. Which side?
- 22 A. The upper side, the right-hand
- 23 side as you're going outby.
- Q. Okay. Were you like holding
- onto each other or what?

- A. Yeah. Well, as far as 01
- 02 everybody else, I don't know, but I
- 03 know Billy Mayhorn and Blue Mayhorn,
- or Elmer Mayhorn, was right with me. 04
- Q. Okay. Did you help anybody 05
- 06 else put their rescuer on?
- 07 A. No.
- 80 Q. When you put your rescuer on,
- 09 did you use the nose clip?
- A. Yeah. 10
- 11 Q. What do you think we could
- 12 have done to prevent these
- fatalities? 13
- 14 A. I don't know, you know what I
- 15 mean? I couldn't tell you. I mean,
- ---. 16
- Q. When we first started your 17
- interview here, I got fouled up on 18
- 19 your home address. You say you live
- 20 in Chapmanville?
- 21 A. Yes.
- Q. Where abouts in Chapmanville 22
- 23 do you live?
- 24 A. It's outside Chapmanville,

25 it's called Browns Run Road.

Q. I know where that is.

- 01
- A. Up ---? 02

- 03 Q. My dad grew up there.
- 04 A. Oh, okay. That's where I live
- 05 at.
- 06 Q. Okay. That would be ---?
- 07 A. Hill Top Trace Mountain.
- 08 Q. Okay.
- 09 MR. FARLEY:
- 10 I don't think I have
- 11 anything else.
- MR. MURRAY:
- 13 Okay. Mr. Heath, did
- 14 you have anything that you
- 15 wanted to clarify?
- 16 ATTORNEY HEATH:
- No further --- no
- 18 clarifying questions.
- 19 MR. MURRAY:
- 20 Mr. Hensley, did you
- 21 have anything you wanted to
- 22 add?
- 23 A. No. I'd like to know what
- 24 happened. I know you all would like
- 25 to know what happened. I'd like to

- 01 know what happened also.
- 02 ATTORNEY HEATH:
- 03 Kenny, I should also
- 04 state, today he had asked me
- 05 about getting a copy of this

06	transcript	and I	related	what

- 07 you all said with the first
- 08 witness, that you all were
- 09 refusing to do that. So he's
- 10 aware of that.
- MR. MURRAY:
- 12 At the end of the
- investigation, we'll make
- 14 those available, but while the
- 15 investigation is open, we
- 16 think that for the --- in the
- 17 best interest of the
- 18 investigation, it's very
- 19 important to hold this closed.
- 20 A. Okay.
- 21 MR. MURRAY:
- Mr. Hensley, we really
- 23 appreciate you coming out here
- 24 today. And I know times are
- 25 tough, but we really

- 01 appreciate you coming out here
- 02 and sharing what information
- 03 you have. It's been very
- 04 helpful. It will be very
- 05 useful.
- 06 We'd ask that you not
- 07 discuss your interview today

0.8	with	anv	person	who	mav	have
00	WILLI	ally	PETPOII	WIIO	ıllay	11a v C

- 09 already been interviewed or
- 10 who may be asked to give a
- 11 statement in the future. This
- 12 will ensure that we obtain
- everyone's independent memory
- 14 of the events surrounding the
- 15 accident.
- 16 After questioning other
- 17 witnesses and obtaining
- 18 additional information and we
- 19 better understand what
- 20 happened, we may ask you to
- 21 come back for further
- 22 questioning. We would
- 23 appreciate your cooperation.
- 24 A. That's fine.

05

MR. MURRAY:

- 01 If at some point after
- 02 you leave here today, you
- 03 think of something that we

failed to ask you or there's

some additional information

- 06 you think may help us, feel
- 07 free to contact either me or
- 08 my staff assistant, Anthony
- 09 Webb, the gentleman that
- 10 called you. Here's our

- 11 contact information.
- 12 A. Okay. Thank you.
- MR. MURRAY:
- 14 And the Mine Act
- 15 provides certain protection
- 16 for individuals who
- 17 participate in accident
- 18 investigations. If at any
- 19 time you believe that you have
- 20 been treated unfairly because
- 21 of your cooperation in this
- 22 investigation, give us a call.
- 23 A. Okay.
- MR. MURRAY:
- 25 You're protected under

- 01 the Mine Act. And again, we
- 02 really appreciate you coming
- 03 in here. We need this
- 04 information.
- 05 A. I'm just glad to help.
- 06 MR. FARLEY:
- 07 Go ahead.
- 08 A. I'd just be glad to help.
- 09 MR. FARLEY:
- 10 State regulations offer
- 11 the same protections.
- 12 A. Okay.

13	MR. FARLEY:
14	If you think of
15	anything else you need to talk
16	to us about.
17	MR. MURRAY:
18	Okay. Thank you.
