## P R O C E E D I N G S

1  
2 -----  
3 ATTORNEY BAXTER:

4 My name is Derek Baxter. Today is August  
5 4th, 2010. I'm with the Office of the Solicitor, U.S.  
6 Department of Labor. With me is Erik Sherer, an  
7 accident investigator with the Mine Safety and Health  
8 Administration, MSHA, an agency of the United States  
9 Department of Labor. Also present are several people  
10 from the State of West Virginia. I ask that they  
11 state their appearance for the record.

12 MR. FARLEY:

13 Terry Farley, with the West Virginia  
14 Office of Miners' Health, Safety and Training.

15 MR. O'BRIEN:

16 John O'Brien with the West Virginia  
17 Office of Miners' Health, Safety and Training.

18 MS. SPENCE:

19 Beth Spence, with the Governor's  
20 independent investigation.

21 ATTORNEY BAXTER:

22 There are also members of the  
23 investigation team present in the room today. Mr.  
24 Sherer, Mr. Farley and Ms. Spence will be conducting  
25 the questioning today.

1 All members of the Mine Safety and Health  
2 Accident Investigation Team and all members of the  
3 State of West Virginia Accident Investigation Team  
4 participating in the investigation of the Upper Big  
5 Branch Mine explosion shall keep confidential all  
6 information that is gathered from each witness who  
7 voluntarily provides a statement until the witness  
8 statements are officially released. MSHA and the  
9 State of West Virginia shall keep this information  
10 confidential so that other ongoing enforcement  
11 activities are not prejudiced or jeopardized by a  
12 premature release of information. This  
13 confidentiality requirement shall not preclude  
14 investigation team members from sharing information  
15 with each other or with other law enforcement  
16 officials. Your participation in this interview  
17 constitutes your agreement to keep this information  
18 confidential.

19 Government investigators and specialists  
20 have been assigned to investigate the conditions,  
21 events and circumstances surrounding the fatalities  
22 that occurred at the Upper Big Branch Mine-South on  
23 April 5th, 2010. The investigation is being conducted  
24 by MSHA under Section 103(a) of the Federal Mine  
25 Safety and Health Act and the West Virginia Office of

1 Miners' Health, Safety and Training. We appreciate  
2 your assistance in this investigation.

3 You may have your personal attorney  
4 present during the taking of this statement or another  
5 personal representative, if MSHA has permitted it, and  
6 may consult with your attorney or the representative  
7 at any time. Your statement is completely voluntary.  
8 You may refuse to answer any question and you may  
9 terminate your interview at any time or request a  
10 break at any time. Since this is not an adversarial  
11 proceeding, formal Cross Examination will not be  
12 permitted. However, your personal legal  
13 representative may ask clarifying questions as  
14 appropriate. Your identity and the content of this  
15 conversation will be made public at the conclusion of  
16 the interview process and may be included in the  
17 public report of the accident, unless you request that  
18 your identity remain confidential or your information  
19 would otherwise jeopardize a potential criminal  
20 investigation. If you request us to keep your  
21 identity confidential, we will do so to the extent  
22 permitted by law. That means that if a judge orders  
23 us to reveal your name or if another law requires us  
24 to reveal your name or if we need to reveal your name  
25 for other law enforcement purposes, we may do so.

1       Also, there may be a need to use the information you  
2       provide to us or other information we may ask you to  
3       provide in the future in other investigations into and  
4       hearings about the explosion. Do you understand?

5       MR. HENLINE:

6       Yes, sir.

7       ATTORNEY BAXTER:

8       Do you have any questions?

9       MR. HENLINE:

10      No.

11      ATTORNEY BAXTER:

12      After the investigation is complete, MSHA  
13      will issue a public report detailing the nature and  
14      causes of the fatalities in the hope that greater  
15      awareness about the causes of accidents can reduce  
16      their occurrence in the future. Information obtained  
17      through witness interviews is frequently included in  
18      these reports. Since we will be interviewing other  
19      individuals, we request that you not discuss your  
20      testimony with any person, aside from your personal  
21      representative or counsel.

22      A court reporter will record your  
23      interview. Please speak loudly and clearly. If you  
24      do not understand a question asked, please ask us to  
25      rephrase it. Please answer each question as fully as

1       you can, including any information you have learned  
2       from someone else.

3       I'd like to thank you in advance for your  
4       appearance here. We appreciate your assistance in  
5       this investigation. Your cooperation is critical in  
6       making the nation's mines safer. After we have  
7       finished asking questions, you'll have an opportunity  
8       to make a statement and provide us with any other  
9       information that you believe to be important. If at  
10      any time after the interview you recall any additional  
11      information that you believe might be useful, please  
12      contact or have your representative contact Norman  
13      Page at the telephone number or e-mail address  
14      provided to you. Any statements given by miner  
15      witnesses to MSHA are considered to be an exercise of  
16      statutory rights and protected activity under Section  
17      105(c) of the Mine Act. If you believe any discharge,  
18      discrimination or other adverse action is taken  
19      against you as a result of your cooperation with this  
20      investigation, you are encouraged to immediately  
21      contact MSHA and file a complaint under Section 105(c)  
22      of the Act.

23     MR. FARLEY:

24     Mr. Henline, on behalf of the Office of  
25     Miners' Health, Safety and Training, I'd like to

1 advise you that the West Virginia Mine Health and  
2 Safety Regulations also protect miners against  
3 potential discrimination from participating in these  
4 type of interviews. I'd like to pass along to you  
5 some contact information from the West Virginia Board  
6 of Appeals. It's a body which hears complaints  
7 regarding discrimination. And I'll pass along my  
8 business card. There is also a phone number on the  
9 memo of Mr. Bill Tucker, who is our lead underground  
10 investigator. Should you experience any problems,  
11 please feel free to give us a call. I would caution  
12 you that should you have a problem and wish to file a  
13 discrimination claim, you need to do so within 30 days  
14 of the time the event occurs.

15 ATTORNEY BAXTER:

16 And please swear in the witness.

17 -----  
18 JOHN HENLINE, HAVING FIRST BEEN DULY SWORN, TESTIFIED  
19 AS FOLLOWS:

20 -----

21 ATTORNEY BAXTER:

22 Please state your full name and address  
23 for the record.

24 A. John Russell Henline. [REDACTED] [REDACTED]

25 [REDACTED].

1 ATTORNEY BAXTER:

2 And can you spell your last name, please?

3 A. H-E-N-L-I-N-E.

4 ATTORNEY BAXTER:

5 Okay. And Mr. Henline, do you have a  
6 personal legal representative here with you today?

7 A. Yes, sir.

8 ATTORNEY BAXTER:

9 Will your personal legal representative  
10 please identify himself?

11 ATTORNEY SEARS:

12 Christopher Sears, with the law firm of  
13 Shuman, McCuskey & Slicer.

14 ATTORNEY BAXTER:

15 And Mr. Henline, did you voluntarily  
16 choose Mr. Sears as your personal legal  
17 representative?

18 A. Yes, sir, I did.

19 ATTORNEY BAXTER:

20 Did you feel like you had a choice in the  
21 matter?

22 A. Yes, sir.

23 ATTORNEY BAXTER:

24 Do you consent now to having Mr. Sears as  
25 your personal representative?

1 A. Yes, sir.

2 ATTORNEY BAXTER:

3 Do you understand that Massey Energy, its  
4 affiliates or its officers or directors or attorneys  
5 may not represent or direct you in this matter?

6 A. Say that again.

7 ATTORNEY BAXTER:

8 Do you understand that Massey Energy or  
9 its affiliates or its attorneys may not represent you  
10 in this matter?

11 A. Yes.

12 ATTORNEY BAXTER:

13 Okay. Mr. Sears, are you legally  
14 representing Mr. Henline in this matter?

15 ATTORNEY SEARS:

16 I am Mr. Henline's legal representative.

17 ATTORNEY BAXTER:

18 Okay. Do you understand, Mr. Sears, that  
19 you may not communicate with Massey Energy, its  
20 affiliates or its officers or directors or attorneys  
21 concerning the substance of this representation?

22 ATTORNEY SEARS:

23 I understand my ethical obligations under  
24 the West Virginia Rules of Professional Conduct, and I  
25 agree to be bound by those rules.

1 ATTORNEY BAXTER:

2 Okay. Are you being paid by a third  
3 party to provide such representation?

4 ATTORNEY SEARS:

5 I'm not going to respond to any more  
6 questions that you have of me. With all due respect  
7 to the forum and to this Board, I decline to be the  
8 subject of inquiry. We're here today to ask Mr.  
9 Henline questions, so I'm not going to answer any more  
10 questions you may have. If you want to read them into  
11 the record, that's fine, but I'm not going to respond  
12 to any more.

13 ATTORNEY BAXTER:

14 Okay. Well, I will read you into the  
15 record a series of several other questions that we  
16 would like to ask of you, and then I'll just ask for a  
17 response at the end from Mr. Sears, if that's okay.  
18 We would like you to confirm, Mr. Sears, that you have  
19 the witness' informed consent in writing, which  
20 reflects that you have explained in person the risks  
21 and advantages of such representation, including any  
22 real or potential conflicts of interest, that this  
23 written consent reflects that the witness has been  
24 given a reasonable opportunity to consider the risks  
25 and reasonably available alternatives of such

1 representation and to raise questions and concerns  
2 with you. We would like you to confirm that the  
3 third-party payer will not direct, regulate or  
4 interfere with your professional judgment in  
5 representing your client.

6 We would like you to confirm that there's  
7 no current attorney/client relationship between you  
8 and the third-party payer. We'd like you to confirm  
9 that you are prohibited from communicating with the  
10 third-party payer concerning the substance of the  
11 representation of this client and to confirm that it  
12 is your understanding that the third-party payer shall  
13 process and pay all such invoices within the regular  
14 course of its business consistent with manner, speed  
15 and frequency it pays its own counsel and to confirm  
16 that it is your understanding that once the  
17 third-party payer has committed to pay for your  
18 representation, the third-party payer shall not be  
19 relieved of its continuing obligations to pay without  
20 leave of MSHA or a court or on prior written notice to  
21 the lawyer and the client.

22 ATTORNEY SEARS:

23 Again, I decline to be the subject of  
24 inquiry. I understand my ethical obligations to my  
25 client.

1 ATTORNEY BAXTER:

2 Okay. Mr. Henline, having heard these  
3 representations, do you still want Mr. Sears as your  
4 personal legal representative?

5 A. Yes.

6 EXAMINATION

7 BY MR. SHERER:

8 Q. I want to thank you for coming down here, Mr.  
9 Henline. This is, of course, the investigation of the  
10 tragic accident on April the 5th. We're trying to do  
11 two things. We're trying to put together what  
12 happened, what caused the accident for the  
13 families ---

14 A. Yes, sir.

15 Q. --- and the friends and coworkers of the victims.  
16 They deserve some closure. Another thing we're trying  
17 to do is prevent this sort of accident in the future.  
18 So any help you can give us is greatly appreciated.

19 A. I don't know how I can help you because I don't  
20 know what happened, and I wish I did.

21 Q. Well, let's --- we've got a few questions for you,  
22 and maybe you can provide a key part of putting the  
23 story together.

24 A. I'll answer anything that I can.

25 Q. Roughly, how many years mining experience do you

1 have?

2 A. Thirty-four (34), 35.

3 Q. Thirty-four (34), 35. About when did you start  
4 with the Massey organization?

5 A. 1993.

6 Q. '93.

7 A. Yes, sir.

8 Q. When did you start at Upper big Branch?

9 A. 1995.

10 Q. 1995.

11 A. October.

12 Q. Okay. What sort of certifications do you have?

13 A. Electrician.

14 Q. Electrician.

15 A. Yes, sir.

16 Q. Do you have any foreman papers?

17 A. No, sir.

18 Q. What was your job title at the time of the  
19 explosion?

20 A. Maintenance foreman underground on the evening  
21 shift.

22 Q. Okay. Did you have a certain part of the mine  
23 assigned to you? How did that work?

24 A. No, sir. Just anything --- everything on outby,  
25 basically belts, stuff like that, troubleshooting,

1 needed assistance, you'd go help him or have to go  
2 order parts or something like that. That's it.

3 Q. Sure. Now, is it primarily repair,  
4 maintenance ---

5 A. Yes, sir.

6 Q. --- sort of stuff?

7 A. Yes, sir.

8 Q. Did you get involved in like --- were you  
9 supporting the roof?

10 A. No, sir. No, I don't do that.

11 Q. Okay. Just maintenance?

12 A. Yes.

13 Q. Okay. Were you working or were you scheduled to  
14 work on the afternoon of May the 5th?

15 A. Absolutely, yes, sir.

16 Q. Where were you at when the explosion occurred?

17 A. Out in the yard at the Big Branch, wherever the  
18 portal is, right here.

19 Q. Did you observe the explosion itself?

20 A. Just what was coming out this portal right here,  
21 dust. And I thought we had a stopping blowed out or  
22 something when I was out in the yard and ---.

23 Q. Okay.

24 A. Went upstairs, told them I thought we had a  
25 stopping blowed out or something, because I really

1 didn't know what had happened, sir.

2 Q. Sure. Did you notice that the fans were making  
3 some weird noises?

4 A. Yes, sir. Yes, sir.

5 Q. Could you describe that?

6 A. It's like --- it sounded like it went into a  
7 stall, but what I took it to be was that the explosion  
8 doors were closed up because we didn't know. And Tom  
9 Sheets and I went to the fan and we was in there, and  
10 it was making --- the water gauge had shot way up.

11 Q. Sure.

12 A. And then all of a sudden while we was in the fan  
13 house it just dropped off, sir.

14 Q. Okay.

15 A. And that's basically what you seen, the moisture  
16 coming out this portal here, dust coming out this  
17 portal.

18 Q. Okay. Now, you say it actually went in the fan  
19 house while it was stalled out?

20 A. Yes, sir. Yeah. Well, I thought, you know --- I  
21 guess the explosion doors had shut up at this  
22 particular time.

23 Q. Okay. And is that the way the explosion doors  
24 work on that particular fan?

25 A. I guess. I really don't know. It would have

1 to --- because them aluminum fan blades, it would have  
2 probably disintegrated them, ---

3 Q. Okay.

4 A. --- I guess. I don't know. I would have never  
5 dreamed --- I've never been around one of these  
6 things.

7 Q. Fortunately, very few of us have.

8 A. Yes, sir.

9 Q. Did you notice the --- happen to notice the  
10 amperage on the fan?

11 A. No, sir, I didn't pay any attention to that.

12 Q. Okay. Thank you. What was the shift you worked  
13 --- the last shift you worked prior to the explosion?

14 A. It was on Thursday night.

15 Q. Thursday night.

16 A. Thursday night. We was off on Good Friday. We  
17 was off Friday, Saturday and Sunday.

18 Q. Okay. Do you recall what part of the mine you  
19 worked in on Thursday night?

20 A. Yes, sir. We had to go all the way to Seven North  
21 head and check power boxes, check trip settings and  
22 fire extinguishers and masks.

23 Q. Okay.

24 A. Started at Seven North and worked our way back.

25 Q. Okay.

1 A. And then we was supposed to get them on Friday.  
2 But since Good Friday, we didn't want to get a  
3 violation, so we put it in the book, you know, for  
4 that Thursday.

5 Q. Okay.

6 A. Yes, sir. That's it.

7 Q. Okay. So you went all the way to Seven North?

8 A. Yes, sir.

9 Q. And you checked all the belts outby to the Ellis  
10 Portal?

11 A. No, sir. I didn't go to the Ellis Portal.

12 Q. Okay.

13 A. No, sir.

14 Q. Where did you stop?

15 A. Seven, Six, Five and Four North.

16 Q. Okay.

17 A. And then we come back this way and checked on what  
18 they called old Two North.

19 Q. Okay. Thank you. Did you notice anything out of  
20 the ordinary?

21 A. No, sir.

22 Q. Was the ventilation good while you were up there?

23 A. Yes, sir, ---

24 Q. Okay.

25 A. --- according to me. You know, I mean, I'm on the

1 mainline, and that's ---.

2 Q. Did you notice whether it was --- seemed to be  
3 unusually hot or was it about the same as always?

4 A. About the same all the time.

5 Q. What about the rock dust along the belt line, what  
6 did it look like?

7 A. It looked pretty good to me. You know, I'm not a  
8 --- it looked good. They had the duster at different  
9 belt heads, little tranquil dusters.

10 Q. Sure. Did it look like it had recently been  
11 dusted up through there?

12 A. I don't know when they dusted it, sir, because  
13 they had a big track duster, is all I can tell you.  
14 And they done that on the midnight shift.

15 Q. Okay. Sure. Did you have a methane detector?

16 A. Yes, sir.

17 Q. Did you notice any methane readings while you were  
18 up there?

19 A. No, sir.

20 Q. Did it ever alarm on you that night?

21 A. No, sir.

22 Q. Do you know what it's set at to alarm?

23 A. One percent, I think. It's a Solaris.

24 Q. And some of those are set ---.

25 A. They may go off at a half percent or something

1 like that, but I've never picked up any methane.

2 Q. Okay.

3 A. And of course, I'm out here on the mainline. I'm  
4 not in the returns or nothing.

5 Q. Sure. What about the belt up through there, was  
6 it in good shape?

7 A. Yes, sir.

8 Q. Did you ---?

9 A. As far as I know. I mean, I'm not a belt man,  
10 so ---.

11 Q. Sure. Did you have to make any repairs to the  
12 electrical equipment up in there?

13 A. No, sir.

14 Q. Just checking?

15 A. Just checking.

16 Q. Did you notice any problems with electrical ---?

17 A. No, sir.

18 Q. Okay. What time did you get out of the mine that  
19 day?

20 A. About 12:00.

21 Q. Is that about when your shift normally ends?

22 A. Yeah. I'm in there at 2:30 and quit at 12:30.

23 Q. Okay. Let me ask you an odd question. When you  
24 were up in the Seven North area, did you smell  
25 anything unusual?

1 A. No, sir.

2 Q. Any kerosene type smell?

3 A. No, sir.

4 Q. Did your eyes burn?

5 A. No, sir.

6 Q. Let's go back a bit. Do you recall Massey  
7 Appreciation Day this year?

8 A. That was in February?

9 Q. February, about the middle of February.

10 A. Yes, sir.

11 Q. Did you take off that day?

12 A. Yes, sir, I think I did.

13 Q. And was that on a Saturday?

14 A. It was on --- I can't really remember what day it  
15 was on.

16 Q. Okay. Do you recall the next shift you worked  
17 after that?

18 A. No, sir.

19 Q. Do you recall problems with a methane monitor when  
20 they were starting up at the barrier section, cutting  
21 the overcasts?

22 A. No, sir.

23 Q. Did Jack Martin talk to you about a bridged-out  
24 methane monitor?

25 A. Not that I'm aware of.

1 Q. Did anybody talk to you about a bridged-out  
2 methane monitor?

3 A. No, sir.

4 Q. Okay. Thank you. Have you ever replaced a  
5 methane monitor?

6 A. Yes, sir.

7 Q. When was that?

8 A. It's been a long time ago.

9 Q. A long time ago?

10 A. Yes, sir. I haven't messed with methane monitors  
11 for a long time.

12 Q. Okay. By a long time, meaning a year?

13 A. Year, year-and-a-half.

14 Q. Okay. Are you aware of the stories that the  
15 various newspapers and NPR has run on the bridged-out  
16 monitor?

17 A. No, sir. I'm not aware of none of that.

18 Q. Have you ever been working underground and  
19 somebody called in that an inspector is on the  
20 property?

21 A. Yes, sir.

22 Q. Is that a common occurrence?

23 A. As far as I know, it is.

24 Q. What about ventilation in the mine, do you think  
25 the ventilation was adequate prior to the explosion?

1 A. I'm not a ventilation person. I couldn't tell  
2 you. As far as I know, they had beaucoup of air. I  
3 know it was on the mainline.

4 Q. Sure.

5 A. What they done up there, I don't know.

6 Q. Did you ever hear of any problems with methane in  
7 the mine?

8 A. No, sir, not me.

9 Q. Okay. How about water problems anywhere in the  
10 mine?

11 A. Just behind the wall is all I know. They had air  
12 pumps back there. That's all I know about.

13 Q. Did you ever go back there?

14 A. No, sir.

15 Q. Did you ever hear of anybody running a miner  
16 without curtains?

17 A. No, sir.

18 Q. Now, you mentioned that you're involved with  
19 ordering parts?

20 A. Yes, sir. If we're down for it and if it's not in  
21 the warehouse, yes.

22 Q. Oh, okay. Is there --- do you fill out like  
23 purchase orders or ---?

24 A. No, just a requisition.

25 Q. Do you know how long those requisitions are

1 retained?

2 A. No, sir, I do not. As far as I know, I give them  
3 to the --- well, we don't even have a purchasing agent  
4 on the evening shift.

5 Q. Okay. Is there a purchasing agent on the  
6 dayshift?

7 A. Yes, sir.

8 Q. Who is that?

9 A. Greg Clay.

10 Q. Greg Clay?

11 A. Yes, sir.

12 Q. Is there some limit, like something's got to be  
13 over \$50 or \$100 or something for a requisition?

14 A. I don't know.

15 Q. Well, do you fill out a requisition for a ---?

16 A. For like a cutter motor or something like that.

17 You know, it could be a cutter motor. We had one go  
18 down before. And then the dispatcher on the evening  
19 shift would take care of that if you was down, okay,  
20 and you didn't have it in the warehouse.

21 Q. Okay. Did you get involved with the inventory in  
22 the warehouse?

23 A. No, sir.

24 Q. If you had to, say, get a cutting motor that was  
25 in the warehouse, was there some form that you'd fill

1 out for that?

2 A. No. You just sign a paper where it went to on the  
3 wall.

4 Q. Okay. Just allocating that to a specific section  
5 or machine?

6 A. Yes.

7 Q. Was it by a piece of equipment, like a serial  
8 number or ---?

9 A. Well, it would just say right miner or left miner  
10 or what section it may have been.

11 Q. Okay. Is there anything that we should be looking  
12 at as far as trying to figure out what happened with  
13 this explosion?

14 A. I don't know, sir.

15 Q. Any hints that you can give us?

16 A. No, sir. I wouldn't know.

17 Q. Do you have any personal opinion on what could  
18 have contributed to this explosion?

19 A. No, sir, no personal opinion whatsoever, because I  
20 really don't know.

21 Q. Thank you.

22 A. Yes, sir.

23 MR. SHERER:

24 That's all the questions I've got.

25 EXAMINATION

1 BY MR. FARLEY:

2 Q. Mr. Henline, I don't mean to be redundant. I just  
3 want to make sure I'm clear on what your area of  
4 responsibility was. You were a maintenance foreman on  
5 the evening shift, responsible for outby equipment?

6 A. Yes.

7 Q. Anything outby?

8 A. Outby --- anything outby. If the belts went down,  
9 I would have to go ---.

10 Q. So you didn't go to any of the coal-producing  
11 sections?

12 A. Not unless the troubleshooter needed some  
13 assistance or something like that.

14 Q. How often would you ---?

15 A. Hardly ever. Hardly ever.

16 Q. Do you recall the last time prior to April 5th  
17 that you might have visited one of the coal-producing  
18 sections?

19 A. I can't remember exactly what date or when, but  
20 they needed some parts for a scoop for their headgate  
21 section, and I took parts up there for a scoop, handed  
22 them to the troubleshooter and come back out. I mean,  
23 it was probably three weeks prior to this.

24 Q. As you traveled through the Upper Big Branch Mine,  
25 I'm sure you would have noticed a number of doors ---

1 A. Yes.

2 Q. --- along the mainline track; is that correct?

3 A. Yes, sir.

4 Q. How frequently did you encounter doors that might  
5 have been left open?

6 A. Hardly ever. I've seen some wherever --- up  
7 towards Six North, one of them would be opened up a  
8 little bit that it ---.

9 Q. Excuse me. Let me get this map here. Actually,  
10 I'm looking for the one that shows the new Mother  
11 Drive construction area. Have you had any work to do  
12 there this year in that area?

13 A. No. No, sir. I went through there this year.

14 Q. Specifically I'm talking about in this general  
15 vicinity here at the mouth of the 22 Headgate, where  
16 the new Mother Drive construction was ongoing. Did  
17 you have any work to do there this year?

18 A. No, sir, I didn't do no work up in there.

19 Q. Okay.

20 MR. FARLEY:

21 I don't believe I have anything else.

22 EXAMINATION

23 BY MS. SPENCE:

24 Q. Mr. Henline, did you ever have any trouble getting  
25 parts that you requisitioned for?

1 A. No. No, ma'am.

2 Q. They always came right away?

3 A. Well, depending. It might be an hour, two hours,  
4 three hours if you had to get it trucked in.

5 Q. But it never was days or weeks?

6 A. No. Uh-uh (no).

7 MS. SPENCE:

8 Thank you. That's all I have.

9 MR. SHERER:

10 I don't have anything else.

11 ATTORNEY BAXTER:

12 On behalf of MSHA and the Office of  
13 Miners' Health, Safety and Training, I want to thank  
14 you for appearing and answering questions today. Your  
15 cooperation is very important to the investigation as  
16 we work to determine the cause of the accident. We  
17 request that you not discuss your testimony with any  
18 person aside from your personal representative. After  
19 questioning other witnesses, we may call you if we  
20 have any follow-up questions. If at any time you have  
21 additional information about the accident that you  
22 would like to provide us, please contact us at the  
23 contact information that was previously provided.

24 If you wish, you may now go back over any  
25 answer you've given during this interview. You may

1       also make any statement that you'd like to make at  
2       this time.

3       A. I don't have nothing, sir.

4   ATTORNEY BAXTER:

5   Again, I want to thank you for your  
6       cooperation in this matter.

7       A. Thank you.

8   ATTORNEY SEARS:

9   I have a request. He would like to  
10       maintain the confidentiality of this as much as  
11       possible, as permitted by the law. And also he would  
12       like to have an opportunity to read and sign his  
13       transcript before it's made final.

14   ATTORNEY BAXTER:

15   Okay. The transcript, we'll take that  
16       under advisement. We'll contact you at a later date.  
17   In terms of the confidentiality, can you  
18       give an explanation or ---?

19   ATTORNEY SEARS:

20   It's just --- I mean, you explained that  
21       that was his right to do, and he'd like to invoke that  
22       right.

23   ATTORNEY BAXTER:

24   Just so it will help us assert that  
25       later, do you have any --- aside from just a desire,

1 do you have any grounds for confidentiality?

2 ATTORNEY SEARS:

3 Well, I'm not going to explain his

4 rationale for it, but to the extent that he has that

5 right, he would like to invoke that right.

6 ATTORNEY BAXTER:

7 Okay.

8 MR. FARLEY:

9 On behalf of the state, you may be aware

10 that our Freedom of Information requirements are a

11 little different when it includes an investigation.

12 Everything we gather, including transcripts, will be

13 available to the public.

14 ATTORNEY SEARS:

15 I understand. Thank you.

CERTIFICATE

I, Danielle Ohm, a Notary Public in and for  
the State of West Virginia, do hereby certify:  
That the witness whose testimony appears in  
the foregoing deposition, was duly sworn by me on said  
date and that the transcribed deposition of said  
witness is a true record of the testimony given by  
said witness;  
That the proceeding is herein recorded fully  
and accurately;  
That I am neither attorney nor counsel for,  
nor related to any of the parties to the action in  
which these depositions were taken, and further that I  
am not a relative of any attorney or counsel employed  
by the parties hereto, or financially interested in  
this action.

*Danielle Ohm*
