H. Jack Henry, Chief Executive Officer
Trinity Resources LLC
PO Box 800
737 Eleanor Industrial Park
Eleanor, WV 25070

Mr. Henry:

After the evaluation of the documentation submitted and with the recommendation of our technical reviewer the Office of Miner's Health Safety and Training approves the requested modification of the Trinity Resources, LLC 'Guardian Angel™' for use in meeting the Emergency Shelters/Chambers requirements outlined in the West Virginia Rule Governing Protective Clothing and Equipment, §56-4-8 with the conditions noted.

In addition to the current 10 miner 'Guardian Angel™' the 14 miner unit is approved for application in underground mines for use when built and provisioned to per the submitted design with all the conditions included in the previous approval.

No claims for performance regarding performance of this product under conditions other than those required by West Virginia Law or of ongoing fire or pressures above 15 psi are authorized by this approval.

Prior to delivery to any West Virginia mine, documentation of MSHA approval for all electrical items used in conjunction with the 'Guardian Angel™' warranting they are either intrinsic safety or explosion proof must be submitted to this office.

Trinity Resources, LLC shall, upon request, provide this office with verification of valid orders, delivery dates, and status of delivery as required for this office to enforce §56-4-8.

Any changes required or enhancements to the approved design affecting the ability to meet any provision of §56-4-8 shall require approval of this Office prior to any affected 'Guardian Angel™' being placed into operation.

Sincerely,

A handwritten signature in black ink that reads "C.A. Phillips".

CA Phillips, Director
Office of Miners' Health and Safety
