June 16, 2025

To all WV 80 Hour Instructors, please be advised that the 80 Hour program has been updated to include an overview of Proximity Detection Systems. It is not meant to be a stand-alone program but to be used in conjunction with your other training materials on this subject to further instruct our young miners on the dangers of Continuous miners. The update is on the 3EEWHS file starting on slide 127 through slide 146. If you have any questions or comments, please feel free to contact me.

Sincerely,

Gary S. Tincher  
Safety Instructor
