Signature & Title of Mine Official

Note: This permit is issued subject to the conditions and limitations outlined on the reverse side.

Permission is hereby granted to shoot coal that has not been undercut, middle cut, top cut, rib, or center sheared.

CONTINGENT UPON STRICT COMPLIANCE WITH THE FOLLOWING:

1. The working area shall be adequately rock dusted to within 40 feet of the face and including the last open cross cuts regardless of their proximity to the face.
2. No more than 4 breaker shots shall be fired simultaneously. The remaining holes must be fired singularly unless a multiple shooting permit is obtained.
3. Shooting shall be done by a certified shot firer and face must be carefully examined before and after shooting.
4. A copy of this application/permit shall be posted and kept at the mine.
5. The permit supersedes and voids all prior shooting permits issued to this mine.
6. Whenever permits are issued by the Health, Safety & Training, frequent examinations shall be made by the Mine Inspector during the tenure of this permit to determine that the requirements and limitations of this permit are complied with.
7. Supervisors and employees handling explosives must be thoroughly acquainted with the requirements of Chapter 22A of the West Virginia Code, pertaining to explosives and blasting and shall be in compliance therewith.
8. Zero delay detonators shall not be used.

NOTE: This permit shall become void upon the District Inspector's recommendation.
