Title of Mine Official

Permission is hereby granted to perform multiple shooting in coal, not to exceed _____ shots at one time.

Note: This permit is issued subject to the conditions and limitations outlined on the reverse side.

CONTINGENT UPON STRICT COMPLIANCE WITH THE FOLLOWING:

1. The working area shall be adequately rock dusted to within 40 feet of the face and including the last open cross cuts regardless of their proximity to the face.
2. Multiple shooting shall be performed by a certified shot firer who has been examined and certified by the Office of Miners' Health, Safety & Training and designated by mine management. The face must be carefully examined before and after shooting and a careful check made to see that there are no misfired shots.
3. The section on which multiple shooting is being performed shall be under the direction of a certified person.
4. The power source shall be a permissible unit of sufficient capacity to assure that all charges are detonated.
5. A record shall be kept of all misfired detonators and explosives.
6. A copy of this application/permit shall be posted at the mine.
7. The permit supersedes and voids all prior shooting permits issued to this mine.
8. Supervisors and employees handling explosives must be thoroughly acquainted with the requirements of Chapter 22A of the West Virginia Code, pertaining to explosives and blasting and shall be in compliance therewith.
9. Zero delay detonators shall not be used.

NOTE: This permit shall become void upon the District Inspector's recommendation.
